

# IT'S A JUNGLE OUT THERE

*"This Eclectic design was achieved through mixing patterns and jewel tones of color with soft metals to make a spectrum of wild decor that one would not customarily find in a kitchen."*

*ColorInspire*

- Priscilla Nocua Yu  
Designer

## Set 1 at KBIS 2016

Wellborn Cabinet, Inc. has used the vibrant and chaotic characteristics of life as inspiration for this accessory kitchen that will be shown front and center at KBIS 2016. The jungle jewel tone green is displayed on Wellborn's Estate Collection and made possible with ColorInspire. A mixture of raised and recessed panels, along with the zebra patterned tile give this wild design an eclectic feel that is sure to catch anyone's attention. The design mixes not only patterns and colors, but metals as well. The Edison light bulbs are housed in natural brass cafe pendant light fixtures that complement the simple geometric brass hardware by award-winning designer, Lewis Dolin.
