

Creative Cave

Wellborn Cabinet, Inc. brings their Whole Home Design Solutions to KBIS 2016 in the form of a Creative Cave. This room is designed to appeal to both men and women with the use of the natural cherry wood tone accompanied by the deep blue painted cabinetry. The room embodies function with several organization features that range from tool trays to a sewing machine rollout table, making this room a pastime paradise.

Function

All items are easy to locate

because of the organization and lighting the cabinetry provides to the cave. Besides the rolling tool cabinet, this space features a wardrobe

tube kit and pants rack built inside the cabinet to serve as a wrapping paper wall mount system, paper divider and wire basket pullouts. This room is designed for function.

About the Design

This room flows equally masculine and feminine by the simplicity of the cabinet styles. The New Natural Cherry cabinet towers from Wellborn Closet provide a variable height difference. The door style is Bishop Bleu from Wellborn's Premier Series and the mixed metal hardware advances the gender neutral theme. The surprise element of the room comes in the form of the barn doors, giving this Creative Cave a contemporary and playful design that easily makes this space a family favorite.
