

Wellborn Cabinet Hosts the CPA

Wellborn Cabinet, Inc. was proud to host the Manufacturing Plant Tour and Trade Policy Forum for the Coalition for a Prosperous America (CPA). The CPA plant tour allows members to discuss an America that wins the global competition for good jobs and industries through innovative strategies and achieve broadly shared prosperity.

The tour of Wellborn's facility included stops at ten stations where the groups were educated about the work that is performed daily. At the tour's conclusion, Paul Wellborn and staff hosted the CPA members for lunch onsite at their training facility. During the luncheon, four presenters discussed the latest developments in international trade policy and how the U.S. industry can be restored with the right public policy.

The **Coalition for a Prosperous America (CPA)** is a nonprofit organization representing the interests of 4.1 million households through our agricultural, manufacturing, and labor members. The CPA is working for a new and positive U.S. trade policy that delivers prosperity and security to America, its citizens, farms, factories, and working people.

Wellborn Cabinet is a proud member of the CPA and hopes to protect our family of hardworking employees and to ensure the growth of our company. Wellborn Cabinet has been a producer of high-quality American-made cabinetry in our community for over 58 years.
