

# Workforce Development Plan

Our Workforce Development Plan guides every employee's growth from their first day forward. At the center is **Onboarding**, which provides a strong foundation and connects employees to four key development areas: **Life Skills** that support personal and workplace success, **Career Laddering** that offers clear pathways for advancement, the **Wesley Woods Way** that reinforces our mission and values, and **Leadership Development** that prepares team members for future opportunities. Together, these elements create a supportive and engaging environment where employees can thrive.
