BY SWS STAFF

BOSTON WHALER 325 CONQUEST

To maximize versatility, Boston Whaler designed the 325 Conquest to serve as a highly capable fishing machine, with abundant accommodations for extended cruising and overnighting. Top features include a prep center, in-sole fish lockers, insulated livewell, convertible portside lounge under the integral hardtop, full-height glass windshield, and spacious deluxe cabin. A starboard dive door lets you slide aboard a big swordfish or tuna, and a removable swim ladder eases reboarding after taking a dip. Twin 300 hp Mercury Verado V-8 outboards propel the 325 to speeds in the high 40s, and an optional joystick control makes short work of docking in tight quarters.
