

Idrive D4

Professional Mobile Digital Video Recorder

The Idrive D4 is a compact and rugged digital video recording solution that supports 4 cameras for extended viewing coverage. The Idrive D4 records high quality digital video on a removable hard drive for extended data storage or on standard high-capacity Secure Digital SD cards. The Idrive D4 is the only solution available that combines continuous recording with event distinction and driving behavior safety systems.

Maximized Record Time

Idrive D4 records up to 4 video and 4 audio channels (H.264 compression). The Idrive D4 adopts an embedded 533Mhz video encoder processor to ensure picture quality. Each video channel has an independent video decoder to avoid interruption. Real time recording: 100f/s (PAL); 120f/s (NTSC). Recording Resolution: 4D1/4HD1/4CIF.

Multiple Recording Modes & Multiple Input channels

The Idrive D4 has Auto recording, alarm recording, timed recording, manual recording, ignition recording, and 24 hours of uninterrupted continuous recording per camera. The D4 has 4 channels alarm input/ 2 channels alarm output.

The Idrive D4 is compatible with the existing Idrive Control Center software that is used with other Idrive products.

The Idrive D4's Voltage supply ranges from 8V to 32V, which allows the DVR to be compatible with most vehicles. The D4's power output is 12V/1.5A. Optional: RS232(PTZ) interface for remote control, GPS Module, 3G (EVDO, HSPA, HSDPA).

The Idrive D4 offers an optional panic button to mark events for easy searching, identification and transfer.

The idrive D4 has a password-protected user interface and integrated locking device.

Idrive CCD Day/Night Camera & Idrive MDVR Accessories

High Stability | Professional Quakeproof Design | Heat-resistance | Built in 12 big IR LEDs

Special 5" or 7" LCD Monitor | Anti-Vibration Cradle | Hard Disk Carriage | Camera Cables & Cages | SD

USB Reader Box

- Enhance passenger and public safety
- Improve driver/operator performance
- Decrease liability, physical damage & workers comp
- Quickly and accurately resolve claims and reduce fraud
- Increase ridership and revenues
- Protect your drivers and your community
- Increase productivity and profits – GPS
- Improve customer service
- Maximize operational efficiency

Idrive Safety Solutions

Today and every day, our in-house engineering department, account management, and technical support personnel are working together to ensure our solutions are up to the minute—and up to your standards. We build in scalability, and we design for interoperability. We create customized solutions to fit unique needs and different budgets. And we focus on consistently delivering high quality mobile video products and services.
