Business

Redbooth Business includes advanced reporting, scalable project planning, and machine-learning powered Redbooth Predict to make planning faster and more accurate.

Advanced Reports

Monitor project progress, productivity trends, and team availability in one-click with pre-built Redbooth reports.

Timeline Overview

Our popular Timeline feature allows multiple workspace viewing and user filters to focus on what's important now.

Redbooth Predict

Intelligent recommendations for easier and more accurate planning on user and date assignees, powered by ML.

Assignable Subtasks

Add details to tasks by adding due dates and assignees to subtasks.

Custom Tag Groups

Label and sort your tasks with Tags. Add additional organization to your projects with custom tag groups.

Pro

Redbooth Pro brings together essential project management features, plus external users and integrated HD Video meetings to keep your team and projects on track.

Time Tracking

Add and track time built right in to Redbooth. Our Chrome Extension timer and 3rd party integrations boost productivity even more.

HD Video Meetings

In just a few clicks, start video meetings for your whole team. Also schedule recurring events for meetings that happen regularly.

Privacy Settings

Invite-only settings on Workspaces, Tasks, Notes, and Conversations keep team projects separate from personal ones.

Free External Users

Invite vendors, customers, freelancers and more to workspaces to increase collaboration and keep projects moving quickly.

Priority and Status Tags Options

Add more information to your tasks with priority and status tags. Customize tags names, colors, and rank for Workspace sorting.

Unlimited Workspaces

Create workspaces for all of your Redbooth projects - both shared and individual. Favorite and color settings make workspaces personal.

Free

Redbooth Free comes with many of our core task management features for 2 users and 2 active workspaces. This plan is ideal for anyone getting stuck in spreadsheets and overwhelmed with emails.

Tasks

Assign, date, and organize tasks to manage your work from start to finish.

Subtasks

Break down tasks into smaller subtasks to get a better view of your work.

Views

Manage tasks across our popular Kanban, Timeline, and Calendar views.

Dashboard

Track your tasks and updates with your teammate from the Dashboard.

Integrations

Connect to file sharing, time tracking and email for better task management.

Apps

Redbooth is available for you wherever you are - web, iOS, Android, Mac & Windows.

Additional Information

We offer discount pricing to educational institutions, non-profits, and larger teams. For discounts or Enterprise plan questions, contact sales@redbooth.com

Education, Non-Profit Discounts

Non-profits are eligible for a 25% discount to any paid plan. We just need a copy of your 501(c)(3) documentation.

Educational institutions (K-12 or University), teachers, and individual students are eligible for a 25% discount to any paid plan. Sign up for Redbooth using your school's official email address and contact us to have the discount applied.

Groups of students (requires a minimum of 3 users) are eligible for a 50% discount to any paid plan. Sign up for Redbooth using your school's official email address and tell us why your group or team wants to use Redbooth.

Enterprise Plan

Companies of all size use Redbooth, and we continue to find a match with larger Enterprises that are looking to consolidate their projects in one place. Our Enterprise Plan includes every Redbooth feature, plus volume discounts, a dedicated success manager, and free training sessions for your team. Let's chat!
