WHERE THE SALES SING

It’s a profusion of titles—and a profusion of possibilities! Announcing 114 amazing calendars for 2022—114 reasons to say, we are looking ahead and we are bullish about it. Maybe you’ve heard of a certain 8-million-copy #1 New York Times bestselling novel called Where the Crawdads Sing? We’re thrilled to debut a wall calendar inspired by it, featuring gorgeous photographs that immerse you in the book’s setting, plus descriptive captions and excerpts from the novel. Visions of the Future: The Official Stephen Hawking Calendar pairs the celebrated scientist’s thought-provoking words with astonishing images of the Universe, photographed by the European Space Agency. What could be more exciting than having the hugely successful New York Times Crossword Page-A-Day on the list? How about having two New York Times Crossword Page-A-Days on the list (welcome New York Times Mini Crossword). Also new from the New York Times: Tiny Love Stories Page-A-Day, created by the editors of the hugely popular Modern Love column.

A Year of Good Black News Page-A-Day and Heirs wall calendar each shine a joyous light on Black culture and history. The popular Audubon line grows with the gorgeous Arctic wall calendar and adorabe Little Shorebirds mini calendar. Finance guru Farnoosh Torabi brings her inspiration and expertise to the desktop with the So Money Page-A-Day. When the undead shuffle down the block, How to Survive a Zombie Apocalypse Page-A-Day will give you tips and tricks for keeping your head. And who knew such a nutty calendar would take the retail world by storm? The hit wall calendar The Secret Life of Squirrels is now available in its original full-size format and as a mini calendar, too. The 17-month wall planner lineup has two new titles: So. Many. Stickers. Activity, based on the bestselling Pipsticks+Workman sticker book series, and the fin-tastic Mermaid Life. Plus the Magnetic Monthly wall format expands from one title (the sell-out Go with the Flow) to three, now including Everyday Gratitude and You Are Doing a Freaking Great Job.

Workman calendars are diverse in look and subject matter, but they all reflect our values of creativity, uncompromising craftsmanship, quality, and environmental sustainability. This is what drives us, resulting in high customer loyalty and sales success, year after year. Next year—can’t wait!

100% energetic, inventive, obsessive—and now, 100% recyclable, too

We’re committed to lessening our footprint on the planet without compromising the production standards and quality content you expect from a Workman calendar. The eco-friendly Page-A-Day format is back for its second year. That means all Page-A-Day and Color Page-A-Day calendars are completely recyclable. The backers are made from sturdy chipboard, and there’s no plastic shrinkwrap. The pages serve double duty, with backs designed to be used as graph notepaper. And the vast majority of Workman calendars are printed on sustainable FSC-certified paper. Just another way we’ve made the best calendars in the business a little better.

THE SECRET LIFE OF SQUIRRELS MINI CALENDAR

Nancy Rose

Returning after a sellout first season, this is the delightfully nutty calendar based on Nancy Rose’s bestselling series. A photographer, author, and accomplished crafts person, Rose harnesses wild squirrels’ natural sense of curiosity—and love for peanuts!—to attract them to meticulously crafted domestic scenes, which she builds and arranges on her back deck. The squirrels come to investigate and eat the strategically hidden nuts—and in doing so, become participants in a singularly adorable photo shoot. Here is a squirrel pushing a tiny wicker baby carriage. A sporty squirrel about to take a bike for a spin. And a mischievous squirrel ignoring a scarecrow to sneak a snack in a farmer’s field. They’re just like peanuts; you can’t get enough. Printed on FSC-certified paper.
