Hello!

We at Future House Publishing have been so delighted at the response to the Super Dungeon Series across the globe, both with reader feedback and with sales. Fans have been praising the series across social media! The Dungeons of Arcadia and The Midnight Queen mark the exciting conclusion of the first Super Dungeon series, but watch for more books coming soon.

It's one of my great delights as founder of Future House to work with established brands, bringing complex characters and backstories to life for hungry fans of those worlds. It means I get to scour conventions and meet with producers to find thriving licensed properties in the game and television spaces with fans out there just waiting to read the book version.

We already have more novelizations on the way, like Hollowfall, a book set in the mysterious and treacherous world of the Master of Wills game, coming out in early 2020.

We'll also continue to bring you top-notch original Science Fiction and Fantasy stories from debut and established authors, like Horizon Beta and War of Kings and Monsters.

Here’s to another successful season,

Adam Sidwell

Creative Director and CEO

Overview:
Based on the Master of Wills boardgame, Hollowfall unites the award-winning fiction of Michael Darling with the brilliant online and board game sensation Master of Wills. While it is not necessary to be familiar with the game, fans will recognize the outstanding world-building and engaging characters they’ve grown to love. Readers who love well-written science fiction will embrace this novelization for its intense action, fast pace, and the unforgettable people who inhabit a darkly futuristic world that feels all too close and all too real.

Michael Darling:
• Darling frequently participates in events as a guest speaker or panelist, including FanX Salt Lake Comic Convention and the Life, the Universe, and Everything Conference.
• Darling was nominated for the Bram Stoker award, presented by the Horror Writers of America.
• Michael Darling’s debut novel, Got Luck, is a bestseller and continues to attract many new readers.
• Got Lost (released September 2019) is the third book in Darling’s continuing Tales from the Behindbeyond series. Readers have plenty to look forward to with Michael Darling.

Description:
Sadia has been betrayed.
Get in. Get the data threads. Get out. It was a standard job. But when Sadia arrives, she finds her contact dead and the only ones who could be responsible are from her own faction. Unable to trust anyone, she goes looking for answers. When she witnesses another unjust death, something inside her awakens. A power takes control of her body and in front of millions of witnesses, Sadia brings the dead man back to life. Suddenly, she’s the most sought after woman in Novus City. And while some factions want to make her a martyr, others want to dissect her. Or worse. Hunted by every faction, every corporation, and every authority, Sadia flees. If she can escape the city, she may survive long enough to learn the secrets of her past. If she fails, instead of giving life back, her power will be used to take it away. She will become the instrument of annihilation, and no one will be left alive to remember Hollowfall.
