An interactive introduction to geology for young nature lovers

- The sixth book in the best-selling Backpack Explorer series of take-along field guides for adventurers ages 4–8
- Rocks are a perennially popular topic with kids and a great way to get children outside observing and engaging with nature
- Early science learning introduced through hands-on activities, crafts, and field guide pages—plus the included magnifying glass and sticker pages encourage screen-free fun

**FEBRUARY 2023**
48 pages; 7¾ x 9¼; Full-color
Hardcover with 3 sticker sheets, magnifying glass, and fold-out journal
ISBN 978-1-63586-553-0; No. 626553

---

**Backpack Explorer: Rock Hunt**
The latest addition to the best-selling Backpack Explorer series (462,000 copies in print) invites kids ages 4–8 to head outside and find, collect, and learn about rocks with this take-along activity book!

*Backpack Explorer: Rock Hunt* is packed with prompts and activities, including: 12 interactive field guide pages introducing rock classifications (color, shape, size, texture); sensory scavenger hunts; hands-on outdoor creative activities; rock experiments; and discovery zone pages with facts about geology, landforms, igneous and metamorphic rocks, gems, fossils, and more. The book includes a real magnifying glass, stickers, and a log for recording rock finds, making it the perfect explorer’s guide for budding geologists, whether in a backyard, a city park, or a nature preserve.

---

**Also Available:**

**We Garden Together!**

**Jane Hirschi and the Educators at CitySprouts**

Kids don’t need a big backyard or outdoor space to learn about gardening and how plants grow. This introductory garden book, packed with photos of 3 to 6 year olds in action, features hands-on planting and growing activities that can be done in a small yard, classroom, or community garden.

Written by the staff of City Sprouts, a leading educational organization in promoting urban gardening and equitable access to nature, each activity—from Sorting Seeds to Going on a Worm Hunt to Planting a Tasty Salad—encourages kids to roll up their sleeves and learn about seeds, planting, and gardening. Step-by-step photos and on-the-page discovery prompts, presented in a lively design, make it easy and inviting for kids everywhere to become plant lovers and nature explorers.

**We Garden Together!**

Jane Hirschi is the founding director of nature education program City-Sprouts. Hirschi has been recognized as a Social Innovator by Root Cause Social Innovation Forum and is the author of Ripe for Change: Garden-Based Learning in Schools. She lives in Cambridge, Massachusetts.

CitySprouts is a nationally recognized educational organization promoting urban gardening and equitable access to nature for young learners. For over 20 years, CitySprouts’s programming has provided early science and nature education in collaboration with Boston-area public elementary schools.
Best-selling author Julia Rothman’s newest Anatomy book explores wild animals around the world

- The highly anticipated fifth book in the best-selling Anatomy series—a favorite of adults and kids alike—with a combined 549,000 copies in print
- Details the unique attributes, habits, and habitats of wild animals around the world, including the animals most-requested by Julia’s devoted fans
- Packed with original art by a popular contemporary illustrator whose work appears in her Scratch column in the Sunday New York Times, as well as on products ranging from dishware to designer fabrics

APRIL 2023

Wildlife Anatomy
Julia Rothman

Julia Rothman’s series of Anatomy books (549,000 in print) are beloved by children and adults alike. In Wildlife Anatomy, Rothman captures the exciting and distinctive attributes of wild animals around the world. The book is packed with hundreds of her charming, original illustrations, detailing the unique features of animals of the rainforest, desert, grasslands, oceans, and much more.

From lions, bears, and zebras to monkeys, mongoose, bats, elephants, giraffes, hippos, and much more, Rothman’s visual guide covers all the key features, right down to the anatomy of a lion’s claw and a wild horse’s hoof. All the illustrations are accompanied by labels, intriguing facts, and identifying details, posing questions such as: “When is a Panther Not a Panther?” and “What Makes Aardvarks So Odd?” Rothman’s characteristic combination of curiosity and an artist’s eye makes this wildlife treasury rich and full, promising new discoveries every time it’s opened.

---

**Home Detox**

**DANIELLA CHACE, MSc, CN**

From bedroom mattresses to daily cleaning products for the kitchen, toothbrushes, and even furniture and clothing, toxins are embedded in many products and items used regularly in the home. **Home Detox** is a practical, accessible guide to understanding the problem and how we can address it in our own homes in a manageable and affordable way.

Daniella Chace, a professional toxicologist and health writer, teaches readers how to identify potential toxins with an easy-to-follow, room-by-room evaluation of the “Toxic Ten” in each space. She explains the connection between toxins in everyday objects and chronic health issues. She then offers strategies for eliminating toxins, along with easy recipes for effective homemade cleaning solutions using essential oils, baking soda, vinegar, and other ingredients that are natural, affordable, and effective.
Holistic Cancer Care
CHANCHAL CABRERA

Patients facing a cancer diagnosis often feel at the mercy of an illness they don’t understand and in the hands of doctors offering treatments that focus on the cancer, instead of on the patient. In Holistic Cancer Care, Chanchal Cabrera, a consulting medical herbalist with more than 20 years specializing in holistic oncology, provides in-depth guidance for using herbal therapies in conjunction with conventional treatments.

Putting the patient front and center, holistic therapies help boost the immune system, slow the spread of certain cancers, and can, in some cases, even enhance the cancer-killing effects of chemotherapy. Herbal medicine and other therapies also offer effective ways of dealing with the side effects of chemotherapy and radiation. Drawing from decades of clinical experience helping patients recover from cancer, Cabrera provides a wealth of safe, well-researched information, including specific herbal formulas, detox protocols, recommendations for nutritional supplements, and patient case histories that demonstrate the power of the strategies she recommends.

“Chanchal Cabrera, one of North America’s finest clinical herbalists, helps you safely and effectively manage the challenging journey to better health.”
— DAVID WINSTON RH(AHG), DSc

“Provides a sense of empowerment by offering practical advice and knowledge on food compounds, supplements, recipes, simple nutritional guidelines, and strategies for optimal success.”
— CAROLINA BROOKS, BA (HONS), ND, IFMCP, Creator of the Vitamorphic Method®

“Combines traditional knowledge with modern science to provide effective strategies for every stage of the cancer journey.”
— NALINI CHILKOV, LAC, OMD, Founder, Integrative Cancer Answers, American Institute of Integrative Oncology
Sally Sampson is the founder and president of the national nonprofit ChopChop Family. She is the author or coauthor of 26 cookbooks, including ChopChop: The Kids’ Guide to Cooking Real Food with Your Family, The Olives Table (with Todd English), and The $50 Dinner Party. She has contributed to numerous publications, including The New York Times, Bon Appétit, Food & Wine, and The Boston Globe. She lives in Belmont, MA.

The ChopChop Family Cookbook

This colorful, easy-to-follow, beginner cookbook from ChopChop Family magazine, a James Beard award-winning publication with a mission to get families to cook real food together, features more than 250 recipes for breakfast, lunch, and dinner. Specially designed to appeal to both adults and kids in budget- and time-strapped families, the recipes include favorites like Overnight Oatmeal, Free Form Lasagna, and One-Ingredient Banana Ice Cream, along with simple cooking and meal-prep instructions.

The book is packed with inspiring introductions to popular whole foods, lessons on basic kitchen skills, nutrition sidebars, and mix & match charts for sandwiches, smoothies, and more. Every page of this rich resource is designed to help families develop the know-how and confidence to cook with whole foods, allowing them to enjoy the benefits of making and eating homemade meals together.

Easy, budget-friendly recipes introduce kids and adults to fresh flavors and the pleasures of homemade food.
The Creative Vegetable Gardener

Kelly Smith Trimble

For decades, gardeners have approached vegetable gardening the same way: planting in square or rectangular beds or in straight rows, keeping vegetables separate from flowers, and definitely not mixing perennial plants with annual ones. It’s time to break the rules!

Lifestyle editor and master gardener Kelly Smith Trimble encourages readers to widen their focus, be playful, and imagine a vegetable garden that reflects their own unique aesthetic and offers a meditative sanctuary as well as a source of fresh, homegrown food. From seed selection to garden layout and regenerative gardening practices, Smith Trimble’s liberating advice offers gardeners of all levels a pathway to making the garden a place of nourishment for the soul and creative spirit, while also feeding the body.

Re-envision the vegetable garden as a space to create and play

- Approaches gardening as a creative activity, daring gardeners to break with convention and imagine a space that is beautiful as well as productive
- Integrated approach to growing in the home landscape that includes pollinator plants, medicinal herbs, cut flowers, and other beautiful and eco-friendly elements, along with a bounty of nutritious, homegrown food
- Perfect for beginning gardeners intimidated by all the vegetable-growing rules, as well as gardeners of all levels looking to introduce creativity and self-care into their garden practice

Readers will discover dozens of ways to make the vegetable garden a place of beauty and sanctuary as well as a source of healthy food.
Leah M. Webb, MPH, CHC, is a certified health coach and an avid gardener. Motivated by the desire to supply her family (including two children who have serious health challenges) with as much fresh, healthy food as possible, she developed the seven-stage implementation plan for her own homestead and gardens in North Carolina.

The Seven-Step Homestead
Leah M. Webb

Today’s gardeners want a bit of everything—vegetables, fruit, medicinal herbs, flowers for pollinators, and even chickens for eggs. The dream is to build a diverse landscape that serves multiple functions, but achieving that goal can be intimidating and overwhelming. Homesteader Leah M. Webb shares her strategy for implementing a homestead plan in seven stages by starting small and gradually adding more features each year.

The Seven-Step Homestead takes readers through the process with a series of doable steps, beginning with establishing one or two raised beds of the easiest vegetables to grow, and gradually building up to the addition of fruit trees, medicinal herbs, storage crops, and a chicken coop for fresh eggs. Step-by-step photos from the author’s own homestead, accompanied by her hard-earned advice and instruction, make this a one-of-a-kind guide for anyone who aspires to grow more of their own food.

Interest in backyard food gardening has spiked, driven by the COVID-19 pandemic, inflation, and disruptions to food supply chains.

The seven-step plan starts small— with a couple of raised beds and easy-to-grow vegetables—and expands each year to produce fruit trees, medicinal herbs, storage crops, and a chicken coop for fresh eggs.

Webb teaches from first-hand experience, with detailed step-by-step instruction and photography throughout from her own prolific, self-sufficient homestead.

A multi-year program for turning any yard into a family’s primary food source.

Leah M. Webb, MPH, CHC, is a certified health coach and an avid gardener. Motivated by the desire to supply her family (including two children who have serious health challenges) with as much fresh, healthy food as possible, she developed the seven-stage implementation plan for her own homestead and gardens in North Carolina.

The Seven-Step Homestead takes readers through the process with a series of doable steps, beginning with establishing one or two raised beds of the easiest vegetables to grow, and gradually building up to the addition of fruit trees and berry bushes on hugelkulture mounds, a coop full of chickens, and a winter’s worth of storage crops. Step-by-step photos from the author’s own homestead, accompanied by her hard-earned advice and instruction, make this a one-of-a-kind guide for anyone who aspires to grow more of their own food.

Best-selling author Barbara Pleasant makes organic vegetable gardening easy, fun, and rewarding with detailed designs for 24 beginner-friendly gardens. From what to buy and where and when to plant, to how to care for each vegetable, Pleasant encourages readers to start small, grow the food they love, and expand their plant selection as their skills develop.

Specially tailored plans focus on what gardeners most want to grow, from the Front-Yard Food Supply to the Marinara Medley, Sweet Corn & Company, and High-Value Verticals. There’s a plan and plant selection to fit every gardener’s passion. Detailed illustrations show how to start small the first year and expand the garden in years two and three, encouraging readers to make food gardening a way of life.

Tammi Sweet, MS, LMT, is the author of *The Wholistic Healing Guide to Cannabis*. She is the cofounder and codirector of The Heartstone Center for Earth Essentials where she offers workshops and classes in herbal medicine and online courses in anatomy and physiology. She holds a master’s degree in endocrinology and has been teaching for the past 30 years. She lives and works in upstate New York.

CBD and other cannabis-based products are widely available and popular, with the number of dispensaries increasing exponentially every month. But not all products are equal in terms of quality. The safest and most cost-effective way to use cannabis is to grow a small quantity of the plant in the home garden and make your own medicines.

This beginner-friendly guide, written by an herbalist who specializes in every aspect of making and using cannabis medicine, teaches readers how to grow healthy cannabis plants outdoors for personal use and make their own customized remedies for addressing a range of common ailments and chronic conditions. With step-by-step photography taken in her own garden, author Tammi Sweet, shows the growing phases of the plant and details techniques for planting, caring for, harvesting, drying, and curing the plant. A complete how-to guide to medicine-making shows the reader how easy it is to make whole-plant tinctures, salves, edibles, and oils.
Rob Cardillo has been photographing gardens, plants, and the people who tend them for more than 30 years. Formerly the director of photography at Organic Gardening, he now works for major publishers, horticultural suppliers, and landscape designers throughout the United States. He can be found online at robcardillo.com.

My Chicken Family

Melissa Caughey

Backyard chicken keepers have a deep affection for their animals and interact with them like any pet, as Melissa Caughey, best-selling author of How to Speak Chicken, knows well from her decades of chicken friendships. With *My Chicken Family*, Caughey has created a unique keepsake album that invites chicken owners to create a lasting record of their chicken adventures, with spots for adding photos of their favorite flock members and write-in prompts customized to every phase of the chicken-keeping experience.

Featuring charming chicken-themed art borders, every page invites users to chronicle the phases of their chickens’ lives as they progress from chicks and young adults to egg-laying hens (or roosters) and flock elders. Spaces are allocated for recording amusing anecdotes and individual chicken names and personalities, along with practical information about selected breeds, health care, and flock dynamics. The hardcover format features an egg-shaped die-cut cover that every owner can customize with a portrait of one of their own feathered friends.
Let’s All Keep Chickens!
Dalia Monterroso

Dalia Monterroso, founder of the popular website Chickenlandia, brings a fresh, inclusive voice to the backyard chicken keeping community with this entry-level guide. Monterroso’s enthusiasm is contagious as she conveys the basics of chicken keeping—with an emphasis on low-cost, natural practices—and shares her belief that humans have an innate ability to care for chickens. Asserting that the backyard chicken community welcomes everyone, she addresses a broad audience, including those in urban and suburban locations. Readers will learn how to plan their flock, how to raise baby chicks, what to look for in a chicken coop, how to keep chickens healthy naturally, and more.

Drawing from her own experience as the child of Guatemalan immigrants, Monterroso celebrates how chicken-keeping has been practiced around the world and offers an opportunity to connect with previous generations and transcend cultural, racial, economic, and political divides.
An introductory guide to successfully raising ducks in a yard or on a small homestead

- **Ducks have been gaining popularity** with backyard homesteaders in recent years as a healthy and hardy alternative to chickens, capable of laying eggs into a fifth or sixth season.
- **Storey is a leader in poultry reference books**, and this strong addition to the line will find readers with the many outlets that sell chicks and ducklings.

**JANUARY 2023**
176 pages; 7 x 9; Full-color
ISBN 978-1-63586-529-5; No. 626529

---

**Gail Damerow** has written extensively on raising chickens, ducks, and other livestock, as well as edible gardening and related rural know-how in books including *What’s Killing My Chickens?* and the best-selling *Storey’s Guide to Raising Chickens*, *The Chicken Encyclopedia*, *The Chicken Health Handbook*, and *Hatching & Brooding Your Own Chicks*. She lives in Tennessee with her husband, where they operate a family farm.

---

**An Absolute Beginner’s Guide to Raising Backyard Ducks**
Gail Damerow

Ducks are quickly gaining on chickens as popular animals for the backyard homestead or small farm. They are friendly, productive, good at eating pests, remarkably healthy, and easier to raise than chickens in many ways. Plus, they are exceptionally adorable!

This is the perfect introductory guide from poultry raising expert and best-selling author Gail Damerow. Sections detail everything the beginner duck keeper needs to know, including breed selection, housing, feeding, health care, understanding behavior, breeding, and egg and meat production. Original photography throughout tracks the growth and care of a small backyard flock, from just-hatched ducklings to full-grown adults, showing what it takes to be successful at each step of the process.

---

From choosing a breed to feeding and housing, beginners will find the perfect amount of information to be successful with backyard ducks.

This vibrant collection of 100 postcards features 50 different images of vegetables, fruits, and herbs from the camera of award-winning garden photographer Rob Cardillo. Up-close shots capture the distinctive shapes and features of heirloom varieties, with short descriptions of the pictured varieties on the back. A lidded keepsake box completes this perfect gift.

100 postcards in a flip-top box; 4¼ x 6; Full-color
$19.95 US / $24.99 CAD / £15.99 UK
ISBN 978-1-63586-586-8; No. 626586

Being with Trees
HAHN FRIES
Poet and nature lover Hannah Fries invites readers to slow down and connect with the wonders and healing power of nature, featuring a guided journey of prompts, poetry, meditations, and inspirational photos, with a foreword by Robin Wall Kimmerer, author of Braiding Sweetgrass. This irresistible gift package is filled with stunning artwork and photography that will leave you feeling like you just walked in the woods.

Paper with flaps; 192 pages; 6 x 6
Two-color
$14.95 US / $19.99 CAD / £11.99 UK
ISBN 978-1-63586-605-6; No. 626605
