Colonel Terry Virts graduated from the US Air Force Academy at 21 to begin his journey as a jet pilot. NASA selected him in 2000, and his first mission was to pilot the space shuttle Endeavour. In March 2015, Virts assumed command of the International Space Station and spent 200 days on it. He is also one of the stars (and photographers) of the IMAX film A Beautiful Planet and author of View from Above (National Geographic, 2017). He lives near Houston, Texas.
Brimming with passion, beauty, flow, and style, here is an ABC book like no other—a celebration of Black history and culture in lively verse, matched with illustrations that are each like a folk painting.

Written by the poet Rio Cortez and illustrated by Lauren Semmer, the book teaches the ABCs in a far more interesting and meaningful way than the usual “A is for apple, B is for ball.” Letters represent history—

G is for the Great Migration. Culture—K for Kwanzaa. People and places—H is for Harlem and Zora Neale Hurston. And big ideas—like B for beautiful, bold, and brave.

R is for rise, to reach for the top.
Relentlessly striving, refusing to stop
Like ballplayers, boxers, and gymnasts who fly.
Like lawyers and judges who dared to ask why?

In addition to the rhyming text, the book includes back matter with a timeline plus more information on the events, places, and people mentioned in the poem, from Mae Jemison to W. E. B. Du Bois, Fannie Lou Hamer to Sam Cooke, the Little Rock Nine, and DJ Kool Herc.

Rio Cortez (left) is a writer and Pushcart Prize–nominated poet who has received fellowships from Poets House, Cave Canem, and CantoMundo foundations. Her work has appeared in the New Yorker, Prairie Schooner, the Los Angeles Review, and many other publications. Rio is also a bookseller and buyer for the Schomburg Center for Research in Black Culture, and she lives in Harlem.

Lauren Semmer (right) is an artist, children’s book illustrator, and designer. She studied drawing at St. Paul College of Visual Arts and art history at New York University. Lauren’s bright and charming work is featured on everything from kids’ wall art to children’s apparel. She currently resides in Manhattan with her family.
THE BIG FAT NOTEBOOK® SERIES: HIGH SCHOOL

• EVERYTHING YOU NEED TO ACE GEOMETRY IN ONE BIG FAT NOTEBOOK
  From the Editors of Brain Quest® and Christy Needham

• EVERYTHING YOU NEED TO ACE CHEMISTRY IN ONE BIG FAT NOTEBOOK
  From the Editors of Brain Quest® and Jennifer Swanson

The Big Fat Notebooks are going to high school!

Published just four years ago, the Big Fat Notebooks—with more than 4.6 million copies in print and sales escalating every year—revolutionized the study guide for middle schoolers. Now this lifesaving series is ready to graduate. Announcing the first two titles for high school students: Everything You Need to Ace Geometry in One Big Fat Notebook and Everything You Need to Ace Chemistry in One Big Fat Notebook. Designed as the natural next step for the savvy students (and stressed parents) who made Math (nearly 1.5 million copies in print) and Science (more than 1 million copies in print) the bestselling titles in the middle school series, these books offer a world of help for two of the tougher classes facing most high school sophomores, geometry and chemistry.

Using the same formula that made the middle school series so successful, these new high school titles tackle difficult subjects in a lively, memorable, intuitive way. Critical ideas are broken down and clearly explained. Doodles illuminate tricky concepts, mnemonics provide memorable shortcuts, and quizzes recap it all.

Geometry, written by high school math teacher extraordinaire Christy Needham, follows along with a year of geometry class, starting with the basics, like points, lines, planes, and angles, and progressing to the beginning of trigonometry.

In Chemistry, National Science Teacher Award-winner Jennifer Swanson breaks down the daunting subject into accessible units, from how to conduct an experiment to the Laws of Thermodynamics.

Big Fat Notebooks are already helping millions of middle school students. Now high schoolers will enjoy and benefit from this kind of brilliant help—a set of notes, as if from the smartest kid in class, to help them study throughout the year and get ready for challenging exams.
The Editors of Brain Quest have created some of America’s most successful and trusted educational series for kids, including Brain Quest, Brain Quest Workbooks, Summer Brain Quest, and the Big Fat Notebooks, together with tens of millions of copies in print.

Christy Needham (Geometry) began her career as a high school math teacher. She went on to develop math materials and curriculums. She now enjoys raising her two daughters while writing and helping with math professional development within her community. Christy currently resides in Simi Valley, California.

Jennifer Swanson (Chemistry) is the award-winning author of more than forty nonfiction books for children. A self-professed science geek, Jennifer started a science club in her garage at the age of seven. Jennifer’s passion for science resonates in all her books. She lives in Jacksonville, Florida.
POSTERS FOR A GREEN NEW DEAL
50 REMOVABLE POSTERS TO INSPIRE CHANGE

Creative Action Network

The Green New Deal is a comprehensive legislative plan to fight climate change, move the country to a green-energy economy, clean up our air and water, and promote racial and economic equality through family-sustaining job opportunities. In its breadth and boldness, it’s a vision that mirrors President Franklin Delano Roosevelt’s original New Deal, implemented to pull the country out of the Great Depression in the 1930s.

And just as Roosevelt and his administration used art, particularly posters designed by WPA artists, to rally support for the New Deal, here is a collection of 50 vibrant tear-out posters that celebrate the pillars of the Green New Deal, including environmental sustainability, renewable energy, equality, job creation, and community. The posters are designed by more than 40 illustrators representing a wide range of artistic styles—but all reflecting the urgency and passion of these issues. They are oversized, colorful, and visually striking. Perforated pages make them easy to tear out to hang or use as signs at marches and demonstrations. The back of each poster features text explaining the issue it illustrates and how the Green New Deal seeks to address it. The book also features helpful resources for getting involved in the fight.

Creative Action Network

is a community of artists and designers making art with purpose. These posters are designed by a group of more than 40 artists from all around the country and the world.

IN CASE YOU GET HIT BY A BUS

HOW TO ORGANIZE YOUR LIFE NOW FOR WHEN YOU'RE NOT AROUND LATER

Abby Schneiderman and Adam Seifer

with Gene Newman

Sad, too many people have had the experience of Abby Schneiderman: Her brother was killed in a car accident and the family was left with no idea of what he wanted—he hadn’t left any plans behind. No will, no healthcare proxy, and no one, including his wife, knew his online passwords. Out of this tragedy came the focus of Everplans, a digital company that Abby cofounded to help people of all ages organize their lives and legacy now—so that their loved ones won’t have to later.

Drawing on the wealth of experience from Abby and the Everplans team, this book presents a clearly designed and easy-to-follow program to help even the most disorganized reader take control of modern life’s burgeoning mess of on- and off-line details. Breaking the job down into three levels, from the most urgent (granting access to passwords, outlining a financial blueprint) to the technical (creating a manual for the systems in your home) to the nostalgic (assembling a living memory complete with photos, recipes, significant stories), In Case You Get Hit by a Bus takes the anxiety and stress out of putting your life in order. With a wealth of information to cover just about any contingency, it will help you leave the best parting gift you could ever imagine.

Abby Schneiderman (left) is the cofounder and co-CEO of Everplans. Previously she was a principal at Tipping Point Partners, an NYC start-up incubator. She and her family live in New York City. Adam Seifer (middle), also cofounder and co-CEO of Everplans, is a cofounder of other social media companies and an inventor on US Patent 6175831—the “social networking patent” now owned by LinkedIn. He lives in New York City. Gene Newman (right), the editorial director of Everplans, has spent the past fifteen years serving as editor in chief/editorial director of Maxim.com, Hachette Filipacchi Digital, and other lifestyle properties. He, too, lives in New York City.
72 REASONS TO GO VEGAN

WHY PLANT-BASED. WHY NOW.

Gene Stone and Kathy Freston

Did you know that if you adopt a vegan diet you can enjoy better sex? Save money? Have glowing skin? You can ward off Alzheimer’s, Type 2 diabetes, rheumatoid arthritis, and other metabolic diseases. You can eat delicious burgers. Help save the planet. Join the cool kids, like Gandhi, Tolstoy, Leonardo—and Kyrie Irving, Kat Von D, and Joaquin Phoenix. Oh, and did we mention have better sex? (It’s about blood flow.)

Those are just some of the 72 reasons we should all be vegan, as compiled and persuasively argued by Gene Stone and Kathy Freston, two of the leading voices in the ever-growing movement to eat a plant-based diet. While plenty of books tell you how to go vegan, 72 Reasons to Go Vegan is the book that tells you why. And it does so in a way that emphasizes not what you’d be giving up, but what you’d be gaining. The tone is upbeat, passionate, and direct, and the facts are plentiful and annotated.

Whether because of environment, health, or compassion for animals, more and more people are dipping their toes into Meatless Mondays, eating vegan before 6:00 p.m., choosing Impossible Burgers, or helping books like Thug Kitchen, Forks Over Knives, and Skinny Bitch become national bestsellers—making 72 Reasons to Go Vegan the ideal next book for every food-conscious reader and the perfect gift vegans can give to their friends and family.

Gene Stone (genestone.com) is a former Peace Corps volunteer, journalist, and book, magazine, and newspaper editor, and is a New York Times bestselling author. He has written, co-written, or ghostwritten more than 45 books on a wide variety of subjects, but for the last decade he has concentrated on plant-based diets and their relationship to health, animal protection, and the environment. Among these books are Forks Over Knives, How Not to Die, The Engine 2 Diet, and Eat for the Planet.

Kathy Freston (kathyfreston.com) is a New York Times bestselling author of multiple health and wellness books, notably The Lean, Quantum Wellness, and Clean Protein. She appears frequently on national TV—including Ellen, Dr. Oz, Good Morning America, The Talk, Extra, and Oprah—advocating for a more healthy, sustainable, and just food system. Kathy enjoys hiking and biking and will travel almost anywhere for a good plant-based meal.

For the vegan curious, vegetarians, vegans to give to their loved ones, and anyone who cares about the connection between diet and health and the environment

By two powerhouse vegan authors, Gene Stone—coauthor of Forks Over Knives, The Engine 2 Diet, and How Not to Die—and Kathy Freston, author of Quantum Wellness, The Book of Veganish, The Lean, and other titles

I BELIEVE IN YOU
Sabrina Moyle and Eunice Moyle

Every child sometimes needs a little extra encouragement, a reminder that they are capable, resilient, and loved no matter what. Maybe it’s the first day of school. A music recital. Trying out for a team. Going to the birthday party of a brand-new friend.

I Believe in You is the book for just that moment. Created by Sabrina Moyle and Eunice Moyle, the dynamic sister team behind ABC Dance!, Good Night, Baboon!, and the award-winning design studio Hello!Lucky, it is the irresistibly sweet story of a little dragon and a unicorn who offers unconditional support and motivation as Dragon learns to spread his wings and fly.

The bright, cheerful art captures all of the charm that’s made Hello!Lucky’s earlier books bestsellers and their stationery products so popular. And the writing is just as compelling as the illustration:

You can dance and leap and fly! And if you fall, that’s OK too.
Because no matter what you do, I believe in you.

Eunice Moyle (right) and Sabrina Moyle (left) are the sister team behind Hello!Lucky, an award-winning design studio, and the authors of ABC Dance! and Good Night, Baboon! INDESTRUCTIBLES®

• ALL YEAR ROUND
• BIG AND LITTLE

Carolina Búzio and Amy Pixton

Hooray! Introducing two adorable additions to the unstoppable INDESTRUCTIBLES series: All Year Round: A Book of Seasons and Big and Little: A Book of Opposites.

Babies and their parents can’t get enough of the innovative INDESTRUCTIBLES format, now boasting 41 titles and 6.3 million copies in print. Published on a unique, paperlike material that is 100% rip proof, chew proof, nontoxic, and completely washable, these books are designed for the way babies “read”—with their mouths!—and hold up to round after round of chewing, gumming, drooling, pulling, and bending. When they do get dirty, no problem. Parents just have to rinse them off or throw them in the dishwasher to restore them to their clean condition.

All Year Round introduces baby to the joys of the seasons:

Summer is hot. Let’s go to the beach! Then watch fireflies flash in the night.

Fall is cool. The leaves turn red and yellow and orange. The animals get ready for winter. And so do we.

Big and Little is a charming book of opposites:

Baby is little. Doggie is big.

Baby is sad. Baby is happy.

Baby is awake. Baby is asleep. Shhh . . .

Carolina Búzio’s illustrations are charming and brightly colored; the simple and engaging text is a delight to read aloud and designed to promote language development. Priced at just $5.95 each, All Year Round and Big and Little belong on every baby’s bookshelf.

Carolina Búzio was born and raised in Portugal, where she studied Communication Design at the Fine-Arts University of Porto. She spent one year abroad in Budapest at MOME, where she published her first children’s book: Gato das botas. In 2012 Carolina moved to Berlin, where she now works as a freelance illustrator, animator, and creator of quirky characters.

Amy Pixton is a mother of triplets who created INDESTRUCTIBLES after her mother-in-law, the artist Kaaren Pixton, began painting murals on Tyvek construction wrap. She lives with her family in Kansas City.
INDESTRUCTIBLES are 100% baby safe: chew proof, rip proof, nontoxic, and washable

Each title fits into a hanging Tyvek display for maximum visibility in stores

The series has over 6.3 million copies in print and now sells over 1 million copies annually

STAR WARS ORIGAMI 2

34 MORE PROJECTS FROM A GALAXY FAR, FAR AWAY . . .

Chris Alexander

The folds are strong with this one! Star Wars Origami, the original, is a blockbuster of an origami book with 783,000 copies in print. Now comes the long-awaited sequel, featuring 34 all-new projects from a galaxy far, far away—that of the five newest Star Wars movies.

Created by the original origami master and Star Wars maven Chris Alexander, who travels around the country to fold at Star Wars conventions and convocations, Star Wars Origami 2 is a mix of characters, ships, droids, and weapons. Here’s Kylo Ren and Supreme Leader Snoke, BB-8 and porg, Lando Calrissian and Zorii Bliss, a Jedi starfighter, Poe Dameron’s X-wing, lightsabers, and more. The book begins with an introduction to origami definitions, symbols, and basic folds, and then it’s off to the ingenious origami projects (all of which come with completely illustrated step-by-step directions). Bound in the back: 72 specially designed folding sheets, printed on special origami paper. These sheets are meticulously illustrated to help each Star Wars origami project come alive.
Elaine Petrone developed her Miracle Ball method out of her own experiences with chronic pain. In addition to her book, she’s written for and been featured in Fitness, Vogue, Redbook, Self, Elle, Town & Country, and Harper’s Bazaar, and she’s appeared on nationally syndicated television shows for Fox News, Lifetime, and NBC and ABC News. She has taught professionals and patients at Stamford Hospital in Connecticut for 18 years. She continues to consult on pain management with hospitals, healing centers, and Fortune 500 companies across the country. She lives in southern Connecticut and online at miracleballmethod.com.

Small but mighty, the Miracle Balls perform miracles! Developed by Elaine Petrone, who as a young dancer suffered from a career-ending, potentially crippling injury that she then healed herself, The Miracle Ball Method is a breakthrough therapeutic program based on the use of two small, squishy balls. And it has touched the lives of millions. Now, the original Miracle Ball Method, with more than 1.5 million copies in print, has been revised and updated to include solutions for modern problems like sleeplessness, anxiety and stress, and the aches and pains that come from sitting in front of a screen all day. And the package is cleverly redesigned—without plastic, and with a smaller footprint for easier shelving.

The promise is the same—lie on the grapefruit-size balls (Elaine will tell you exactly where to place them), let your body give in to them, breathe properly (Elaine will show you how), and feel yourself unworking the muscles that hurt. Like magnets, the balls draw out pain and tension. A perfect complement to medical treatments, it’s a revolutionary program of relief for wherever there’s pain—back, head, knees, hips, elbows—and can be longer lasting than physical therapy, chiropractic treatment, yoga, massage, or any drug because the Miracle Ball Method gives you the tools to improve anytime, anywhere.
FRIENDSHIPPING
THE ART OF FINDING FRIENDS, MAKING FRIENDS, AND BEING FRIENDS

Jenn Bane and Trin Garritano / Illustrated by Jean Wei

It used to be so simple, back when we were kids. But now, in an age of loneliness, ghosting, and toxic relationships, making and keeping friends is anything but simple. Jenn Bane and Trin Garritano know this better than anyone. Their podcast, Friendshipping, gets 30,000 downloads a month because their listeners are craving real guidance—along with some entertainment. Now they’ve distilled the lessons and wit into an essential book for anyone who’s feeling a little friendless or is trying to navigate the challenging world of grown-up friendships.

Illustrated throughout with Jean Wei’s dynamic art, here are the tips and tools readers need to make new friends and improve the quality of existing friendships. The tone is relatable and irreverent; the advice stresses gender inclusivity, empathy, and practicality, with scripts and step-by-step guides to achieving friendship goals. Readers will learn how to master the art of small talk (no matter who you are, you are not too boring, and you do have good stories to tell!). How to get to know an acquaintance better—and why “Let’s get coffee sometime” is not an effective way to move a relationship forward. Plus the four levels of friendship in the workplace; the soft no vs. the hard no; making real (non-creepy) friends online; how to unfollow someone on Twitter (and remain friends); and the eternal question: Can dudes and ladies ever really be friends? The answer is yes!

Jenn Bane is one-half of the duo behind the popular Friendshipping podcast. She is also a comedy writer; recipient of a 2018 Clio Award; three-time Shorty Award winner; the executive director of the Science Ambassador Scholarship, a full-ride scholarship for women in STEM; and a writer and producer for Cards Against Humanity. She lives in Chicago. Trin Garritano, the other half of the Friendshipping podcast duo, is the Digital Outreach Lead at Kickstarter, as well as a professional presenter and moderator at conferences like PAX and Fan Expo. She’s also a freelance games writer and has contributed to Cards Against Humanity and Asmadi Games. She lives in Chicago.

Jean Wei is an illustrator and cartoonist whose clients include Airbnb, Google, Intercom, the Los Angeles Times, and the New York Times. She lives in Pennsylvania.
THE CONSTITUTION DECODED

A GUIDE TO THE DOCUMENT THAT SHAPES OUR NATION

Katie Kennedy / Illustrated by Ben Kirchner

Starting with three simple words—“We the People”—the Framers of the Constitution created a slim document that’s guided the United States ever since and evolves along with it. But what exactly does it say? How does it work in practice? And what should we know about this collection of ideas and how it guides our lives as citizens with rights and responsibilities?

*The Constitution Decoded* answers these and other questions in a way that’s never been done before. Written with impeccable clarity and illustrated in a style that brings America’s early days to life, this fascinating guide explains the Constitution literally word by word, sentence by sentence, idea by idea, giving readers a true understanding of not only how the Framers envisioned the United States, but also why they made the choices they did. Here’s why, for example, the United States has three branches of government—legislative, executive, judicial. How bills become laws. Why we have the right to free speech. And how we can change the Constitution as our country evolves.

Packed with historical context and figures, vocabulary, anecdotes, and trivia, this book is an accessible yet richly layered work that belongs in every family library.

Katie Kennedy has taught college history and American government for thirty years. She currently teaches in Iowa, where she lives with her husband and son. She once caught her then-nine-year-old daughter sneak-reading the Constitution under the covers with a flashlight. She’s never been prouder. She is the author of two young adult novels, Learning to Swear in America and What Goes Up.

make shadow puppets
spin a top
untangle a knot
fix a wobbly table

TWISTED TONGUES
JOKEs, COMICS, FACTS, AND TONGUE TWISTERS—ALL 100% GROSS!

Kit Lively and David Lewman
Illustrated by David DeGrand

Let’s face it, kids can never get enough of stuff that’s slimy, stinky, sticky, and oozy. Combine it with the proven crowd-pleasing format of a tongue twister, and the result is pure silly fun.

Co-written by Kit Lively, a veteran of MAD magazine, and David Lewman, an author with riddle books in his resume, Twisted Tongues delivers with 150 original tongue twisters featuring boogers, barf, drool, mucus, pus, gas, poop, and all of the other utterly disgusting things that kids obsess over. In addition to the tongue twisters, the book is packed with delightfully gross illustrations, a recurring comic strip starring two boogers, and wretched riddles and repulsive facts. Did you know that Hippocrates, a doctor in ancient Greece often called the father of medicine, tasted his patients’ earwax? (Eewwww.)

So move over, boring woodchucks chucking wood. And hello, Big bedbugs bite pet pugs’ butts. And Professional pimple popping produces plentiful pus. And Slobbering zombies slumbering soundly. Cue the uncontrollable laughter.

Kit Lively is a longtime writer for MAD magazine and other humor publications. He lives in Dallas, Texas. David Lewman is the author of dozens of storybooks and riddle books for kids, as well as a writer of several TV comedies, including Third Rock from the Sun and Drawn Together. He lives in Los Angeles.

David DeGrand is an illustrator and cartoonist for the Zombie Chasers series and author of numerous comic books, including Garfield, Rocko’s Modern Life, Popeye, and SpongeBob Comics. He lives in Weatherford, Texas.
Oh, those irresistible Teacup Pigs of Pennywell Farm! Tiny enough to hold in the palm of your hand, yet how they shine. With such enormous appeal they are natural stars, both in the calendar world and book world—particularly board books, where this cutest of series now has over 250,000 copies in print.

Which makes it such a joy to introduce two new titles, Pocket Piggies: Christmas! and Pocket Piggies: I Love You! Here the chubby little charmers celebrate two of their favorite things, adorably captured in irresistible full-color images by Richard Austin, their exclusive photographer.

In Christmas!, the merry band of pocket pigs celebrate their favorite holiday season and its many traditions:

Oh, hello! Did you hear?
It’s the best time of year!
Were you naughty? Were you nice?
Santa’s checking his list twice!

I Love You! is a sweet message of love and affection for little kids—on Valentine’s Day or any time of the year!

How much do I love you?
Well, hold on to your hat!
Think of the best thing in the world—
I love you more than THAT!

Each book’s joyful rhyming text is meant to be read aloud and enjoyed together by parent and child—over and over again.

Richard Austin is a professional photographer who’s worked with newspapers and magazines for over twenty years. He lives in Devon, England.

Pennywell Farm, in South Devon, England, is an award-winning farm attraction and activity park. Their world-famous and very friendly Teacup Pigs have been bred since 1992.

DON’T YOU JUST HATE THAT?
SECOND EDITION
905 OF LIFE’S LITTLE ANNOYANCES
Scott Cohen

Don’t you just hate people who view karaoke as their chance to shine? Sitting in a chair that’s shorter than anyone else’s? Holding the ketchup bottle over your French fries and the first thing that comes out is red water? Trading bad date stories with someone you’re having a bad date with?

In 2004, Scott Cohen wrote the first edition of Don’t You Just Hate That?, a backlist gem with 159,000 copies in print. But while the rest of us moved on, occasionally muttering under our breath at all the things that aggravated us, Scott never stopped adding to his finely honed list, and voilà—Don’t You Just Hate That?, Second Edition, an update both timely and timeless, now with hundreds more of life’s little annoyances, irritations, gripes, grievances, and petty pretensions. A true connoisseur of the vexatious, Scott returns with a selection of exasperating things, people, situations, complaints, and attitudes that everyone who’s ever had a bad day can appreciate. Like:

Watching a movie with your parents that shows full-frontal nudity.

Having to make that face to people in the hallway that implies, “Hey.”

When it takes scissors to open the plastic packaging that the scissors are in.

Pop-up ads that offer the removal of pop-up ads.

That bacon will never be considered a vegetable.

Scott Cohen, a connoisseur of all things annoying, owns a company that produces custom-printed, Mylar-indexed tab dividers. In New Jersey. Interesting fact: Tired of living alone, he included his email address in the first edition of his book, which actually led to marriage and children. That was not annoying.
BOOK NERD
Holly Maguire

With over 7 million Instagram posts tagged #booknerd, and millions more tagged with the likes of #bookworm and #bibliophile, it’s clear: Book nerds rule! And what better gift than this joyous celebration of their singular passion.

It’s sweet, it’s affectionate, it’s understanding and clever, filled with bright, playful, intricately detailed illustrations and wonderful mottoes, definitions, relatable moments, and more, all of it the work of book obsessive Holly Maguire. Following in the vein of Crazy Cat Lady, Crazy Plant Lady, and the just published Dog Mom—with over 91,000 copies in print in their first year—Book Nerd celebrates the 360° love that separates a book nerd from the average person who likes to read, even the average book lover. A book nerd is someone special. They belong to more than one library and have a minimum of five books on their nightside table. They confidently use words like bibliotaph (a person who hides or hoards books), tsundoku (a Japanese word for the phenomenon of buying lots of books but never getting around to reading them), and librocubicularist (a person who reads in bed). They’ve never once thought the movie was better. And their favorite T-shirt says—what else?—“Too many books, too little time.”

Holly Maguire is a freelance illustrator who’s worked on a variety of books and other editorial projects, clothing, board games, and stationery. She lives with a deliciously unseemly number of books in Bristol, England.
PAINT BY STICKER®
KIDS: DINOSAURS

Paint by Sticker Kids just gets stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid’s favorite thing—stickers.

And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus and an agile Velociraptor, now known to have been covered in feathers. And don’t forget about the king of them all: a ferocious T. rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name.

Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without realizing they’re doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge.

In other words, hours and hours of artistic fun with none of the hassle or cleanup!

PLAY LIKE A GIRL
LIFE LESSONS FROM THE SOCCER FIELD
Kate T. Parker

With the newsworthy USWNT World Cup championship in 2019, excitement for women’s soccer has never been greater. And now, in time for the 2020 Summer Olympics—where many of the members of that triumphant team will be competing—comes Play Like a Girl from Kate T. Parker, author of the phenomenal Strong Is the New Pretty series and the New York Times bestseller The Heart of a Boy, together with 608,000 copies in print.

Women’s soccer is Kate’s first love, and in this new book she brings together a powerful collection of photographs of players of all ages and skill levels, from the charismatic Megan Rapinoe (see below) and ultimate soccer mom Jessica McDonald to the legendary Michelle Akers to girls as young as three who are just learning to kick the ball. Organized into ten chapters around ten life lessons that the game has to teach, and with quotations from each of the subjects photographed, it’s an inspiring celebration of that very special power the game of soccer has to shape the lives of young women. How it builds confidence. Develops the chemistry of teamwork. Instills body positivity. Teaches them how to accept both winning and losing. And above all, how it gives girls the freedom and space to be fierce, funny, competitive—and to play really hard.

Kate T. Parker is a mother, wife, former collegiate soccer player, Ironman, professional photographer, and author of the phenomenon Strong Is the New Pretty and the New York Times bestseller The Heart of a Boy. Her Strong Is the New Pretty photo series led to collaborations with brands such as Disney, Girl Scouts of the USA, and NBC. It also inspired Kate to launch a philanthropic arm of Strong Is the New Pretty, partnering with organizations that invest in girls’ health and education. When not photographing, Kate can be found playing or cheering at soccer games in and around Atlanta, Georgia.

WE ARE CALLED TO BE A MOVEMENT

Rev. Dr. William J. Barber II

In this single, rousing sermon, the celebrated Reverend William J. Barber II of the Poor People’s Campaign calls for everyone—progressives, centrists, and conservatives alike—to come together, stand together, and lead a moral revival. To unharden the heart of American democracy. To renounce the politics of rejection and greed and fight the ravages of poverty and the injustice of income inequality. To give hope the last word.

A Cochair of the Poor People’s Campaign, the Rev. Dr. William J. Barber II is a religious figure in a secular movement. He is celebrated for his social activism; his ability to speak to the hearts and minds of thousands of listeners, whether in a church or on a march; and an impassioned and selfless commitment to nonviolent change that recalls the greatest of leaders like Dr. Martin Luther King Jr. and Gandhi. And he is known for his way with a sermon. *We Are Called to Be a Movement* has the effect of a long poem, with a rhythm that stirs and inspires the reader. There are quotes from scripture, examples from history, and a simple, powerful honing of language and argument. Published intentionally like a pamphlet, with an immediacy, urgency, and low barrier to buying and sharing, this small but powerful book has a clear message: It’s time for change.

**Rev. Dr. William J. Barber II** is the President & Sr. Lecturer of Repairers of the Breach, Cochair of the Poor People’s Campaign, and Bishop with the College of Affirming Bishops and Faith Healers. He is also the architect of the Forward Together Moral Movement. A former Mel King Fellow at MIT, he received a MacArthur Award in 2018 and the Puffin Award and the Franklin D. Roosevelt Four Freedoms Award in 2015. In 2016, he addressed the Democratic National Convention. He lives in Goldsboro, North Carolina.
First published in 2010 and now with more than 550,000 copies in print, Barney Saltzberg’s Beautiful Oops! is the one-of-a-kind interactive book that shows young readers how every mistake is an opportunity to make something beautiful. A singular work of imagination, creativity, and paper engineering, Beautiful Oops! is filled with pop-ups, lift-the-flaps, tears, holes, and overlays, bends, smudges, and even an accordion “telescope”—each creating a now-you-don’t-see-it, now-you-do! moment of transformation.

Join us in celebrating this important anniversary and spreading the word to a new generation of children. Display the book. Hold an authorless event. Promote its message of creativity at an educator night. Celebrate Oops!

“Everyone who has ever said the word ‘oops’ will be smiling when they see the masterpiece that Barney Saltzberg has created. . . . Beautiful Oops! is funny and fun and is the best gift to give anyone, any age, anywhere, anytime.” —JAMIE LEE CURTIS

“Beautiful Oops! is a small, joyful book that shows kids that there is no such thing as a mistake—life just presents us with events that open windows to new ways of seeing and thinking. It will resonate with those who are frozen by perfectionism, and it is also fun and positive for those kids who love imaginative interaction and exploration.” —JUDY BULOW, Tattered Cover Bookstore, Denver, CO

In the same way that kids can’t read Gallop! without wanting to gallop around the room, Waddle! inspires prancing, hopping, stomping, and scampering. And did we mention color? The prancing pig is pink, the leaping dolphin is blue, the slithering snake yellow. The Scanimation itself is also more lifelike, as the author continues to refine his patented Scanimation process, resulting in a more fluid, realistic motion. Nothing else compares.

And one more thing: Waddle! has a surprise ending. Something else to grab the reader—literally.

In this romping, stomping journey from A to Z, all the animals come alive—as many as four to a page—for a total of 26 Scanimations. It’s the alphabet as it’s never been seen before: A is for the snapping Alligator; B for the swooping Bat; C for the Camel that trots. There’s L for the Lion proudly prowling along, and M for the Mouse scampering inside his wheel. And it all culminates in the largest Scanimation image yet: Z for Zoo.

Happyland, a board book series from award-winning children’s author Dan Yaccarino, introduces three friends in a series of delightful adventures that each teach a lesson in emotional intelligence: In Big Berry, Bink’s desire for the biggest berry grows ever stronger—until she grabs the very largest, which is so big it rolls away and disappears. A compelling activity for crafters and artists, doodlers, and colorers of all ages, Paint by Sticker includes everything you need to create twelve vibrant, full-color “paintings.” The original images are rendered in low-poly, a computer graphics style using geometric polygon shapes to create a 3D effect. As in paint-by-number, each template is divided into dozens of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next—it’s an activity that’s utterly absorbing, both in the pleasure of peeling and sticking and the growing satisfaction of watching a “painting” come to life, emerging from a flat black-and-white illustration to a dazzling image with color, body, and spirit. For all ages.

Here are animals who bond in the most unexpected ways: a cat and a bird. An elephant and a sheep. Koko the gorilla and All Ball the kitten, and the hippo Owen and the tortoise Mzee.

Here are stories of parental love between species, like the dalmatian who mothers a newborn lamb.

Here are stories of canine kindness and courage. Meet Rex, a Belgian Malinois who learned to love and trust again through the improbable friendship of a goose. Popeye the Mastiff, who saved 17 terrified horses by nibbling at their hooves. These true stories of camaraderie, affection, and remarkable bravery prove that dogs are every creature’s best friend.

These 37 stories of true grit show animals who go above and beyond. Animals whose quick acts have saved lives, like the pod of dolphins that shielded a group of swimmers from a great white shark. And animals who unselfishly give, like the shar-pei mix who acted as surrogate mom to hundreds of cats and kittens.

THE BIG BOOK OF TRICKS FOR THE BEST DOG EVER
A Step-by-Step Guide to 118 Amazing Tricks and Stunts
Larry Kay and Chris Perondi

Embark on a beautiful and meaningful adventure with your dog. This is the ultimate step-by-step, fully illustrated guide to teaching your dog 118 tricks and stunts using the power of positive reinforcement.

1,000 performances a year—it’s organized from beginner (with simple tricks like fetching) to advanced (with stunts like vaulting, even riding a skateboard!), and is the best way ever to bond with your dog.

Beginner Tricks

1. Deliver a reward.
2. Dog acclimate to the jump bar. Each step seems too easy, it will help your dog walk over it with your dog. It’s fine to bond with your dog.
3. As your dog goes over the bar, say “over” or “jump over” and over 60 inches is extraordinary. High Flying Harley sweep your flat palm toward the jump bar.
4. If your dog knocks over the bar, reward tiny), and repeat Step 2 from both sides.
5. Verbal cue “over” when your dog sends to the upright over the bar. To send obstacles, such as a barrier of chairs, many dogs need to be lured over the bar. Start the signal, or toss a treat over the bar to the upright above the crossbar. As your dog directly above the crossbar. As your dog.
6. Introduce the visual cue. Stand at the upright and hold the treat as in Step 2.
7. Many paths to victory. Many dogs need to be lured over the bar. To prevent that, block.
8. Many paths to victory. Many dogs need to be lured over the bar. To prevent that, block.
9. Troubleshooting. Cheating may be a sign that your dog is unsure, injured, or simply doesn’t want to jump, so don’t force her.

The author says it best: “This book is for people like you and me. People who go to work and—using words, pictures, music, and stories—are expected to make s**t happen . . . to attract fans, friends, and followers. Make the cash register ring. Win the business. Close the deal. Sell something!”
