

HotSpring®

Every day made better®

Congratulations on your new spa!

You have bought the Hot Spring Hot Spot TX

Gallons: 140

Replacement Filter Number: 31489

****MAKE SURE YOUR FILTER CYCLES ARE SET AT 3:00 PER CYCLE. PG 17 OF YOUR OWNER'S MANUAL OR CONTACT YOUR SALES ASSOCIATE FOR DETAILS 605-361-3323**

You will be sent an additional analysis from our BioGuard computerized water testing system. That analysis is for your initial balance, please adjust only the pH (pH Increaser & pH Decreaser) Alkalinity (Alkalinity Increaser & pH Decreaser) & Hardness (Stain & Scale Control)

Acceptable Ranges to be in:

Alkalinity 40-120

pH 7.2-7.8

Hardness 50-100

Chlorine .5-1.0

Once above is balanced

1. Add 1TBS of Chlorine Concentrate
1. Set Mineral Cartridge at **6** (Change every 3-4 months)
2. Set @Ease Chlorine Cartridge at **1**(Change every 3-4 weeks)
3. Add 1TBS of Enhanced Shock every time you change @Ease Cartridge (*or when water is cloudy*)
4. Add 1oz of Stain & Scale monthly.
5. Bring water test in monthly.
6. Clean filter monthly.

Chemical dosages are approximate and are based on average usage; some adjustments will need to be made. For accurate prescriptions or extra assistance with balancing water, bring in a water sample.
