Fiji - Coral Coast

Visit this beautiful island country to teach basic English alphabets, numbers, rhymes including arts and crafts to tiny toddlers. Bring lots of creativity along with you and make some great friends!

Participate to teach younger children in age groups of 4 to 6 years. These Fijian children are enthusiastic to meet and learn from foreign nationals. Their kindergarten schools are beautifully set up and made by our past participants. You are sure to have some of the best moments with the kids.

Program Description

Fiji is a country in much need of external help, especially with its younger population. You will experience life in both rural and urban areas, which is quite different from the average journey followed by a tourist. Most locals in Fiji can't afford to travel and in the villages there is little chance of contact with the outside world. You will enable students to form relationships with someone from another culture and the teachers can learn different teaching methods and techniques. You will mainly assist the regular school teacher, so you do not need to have any teaching background.

The class sizes are large at the kindergartens so it's difficult for the local staff to give each child as much attention as they need. Your work here is to provide a helping hand by looking after and caring for the children. It is also the perfect opportunity to put any skills and interests you have to use, whether you make arts and crafts, or teach games and songs to the children - your suggestions will be well received. By showing initiative and enthusiasm the options are endless.

You can work on achieving the goals set out in the Kindergarten Plan, including running educational games and group activities, providing emotional support and helping to improve the quality of life for those living in deprived communities. Some of the activities during the program could be teach basic English, plan activities for the understanding of English, playing games with the children, organize dynamic age appropriate activities, develop students conversation skills or help children relate to the English language, etc.

Program Duration & Availability

Min duration (weeks): 1

Aims & Objectives

Due to the shortage of educational personnel, the main objective of this program is to assist teachers in class (for 4 to 6 year olds) with activities and share ideas about the lesson plan.

Schedule

Monday to Friday

Begin your day's scheduled work at the local kindergarten at 9 in the morning. Your session along with the kids will go on until 11 am. During these hours, you can bring along with you various educational materials which you have prepared along with the other participants the previous day. The educational materials or educational concept games can be taught to the children and they would love to learn new things everyday. Almost every day, at about 12 noon, depart for lunch which will be served at our center. During later half of the day, you can prepare lesson plans for the children for the following day.

This schedule can be changed and/or amended depending on weather conditions, local conditions and unforeseen circumstances.

Starting Dates

During 2019

This program starts every week.

During 2020

This program starts every week.

Participant Criteria & Requirements

Minimum age:	18
Maximum age:	-
Minimum English level:	Basic
