📍 Thailand - Phuket

Experience a compact and fun teaching program in Phuket where you will have a chance to improve children's prospects by teaching them English.

Here in this program, will you learn about Thailand's culture and lifestyle, but you will also have plenty of time to spend your afternoons relaxing at a local beach or chill by the pool during your free afternoons. A fantastic way to have fun with your teaching buddies.

Program Description

In this program, you will help improve local children's educational prospects by teaching them English. You will be expected to teach around 2-3 hours in the morning at local schools with children from ages between 3-18 years old. Participants will first work with the coordinator to plan teaching lesson and they will get a chance to engage in teaching under the close supervision of a local teacher.

Many of the schools are open to new concepts and approaches to teaching. This means that you may be able to share your new ideas and teaching strategies that might complement the local Thai teaching methods or style.

Our teaching program serves a dual purpose: of course, it is meant to help children in rural Thailand to have a chance to speak more English (usually even their teachers are not fluent speakers).

Secondly, it will give you an insight into the Thai education system, as well as a good chance to develop friendships with students and teachers.

- The school shows respect to the King of Thailand through a ceremony daily and you might be asked to take part in this unique morning ritual.
- Please take note of the long holidays (mid-March till mid-May and October) as well as public holidays. During such times you can join special classes and English camps that are regularly requested by the local community. In the event that the need in this time is at the local child development center, please keep in mind that you will be working with young children who will require a much different approach than primary or secondary school.
- Please use your creative skills through song, dance, games, and repetition to help young children to learn and enjoy their introduction to basic educational concepts.

Once Lunch is served at the school, you will leave school each day after the morning session and either spend your afternoons at a local nearby beach.
