📍 Madagascar - Nosy Be

Actively engage in the development of a local community by working to set up a showcase site. Also, contribute in bringing positive changes in the lives of women there, by sharing income-generating activities and working with them. You will also visit the surrounding villages and teach the Center's cook and young trainees/staff about nutrition and the English language respectively.

Program Description

This program focuses on educating and empowering the underprivileged communities in Nosy Be, Madagascar. Our main task is to work with a community centre and support and conduct development and educational activities for the community.

We also support women with training and development for them to become independent entrepreneurs and empower them to initiate their own ways to earn a living.

Apart from training youth, the Center's main goal is to set up a showcase site for surrounding villages and for all of Nosy Be. You will take part in setting up this showcase site and also teach the Center's cook about nutrition.

You will also teach young trainees – as well as staff – English language, vis-a-vis the villagers. Participants will also teach them about nutrition and hygiene including the English language.

You will also get a good opportunity to contribute in bringing positive changes in the lives of women thereby sharing income-generating activities and working with them.
