CERTIFICATIONS

AMA Situational Leadership II
 Miller Heiman

University of Washington | Graduate Research Assistant Seattle, WA / March 2018 - Present

UX Researcher for Paul G. Allen School of Computer Science & Engineering's Information and Communication Technology for Development Lab and Information School's Datalab.

FREELANCE | UX Researcher and Designer San Francisco, CA / July 2016 - September 2017

Worked with clients on full cycle research-to-design for applications and websites. The work for clients included user research, defining personas, interaction design, and usability testing to ship new products and/or features.

DESIGNATION | UX/UI Designer Chicago, IL / April 2016 - September 2016

Designed mobile and web applications using design thinking and agile methodologies. Conducted user research and user testing, delivered insights to business decision makers, created user flows and low-to-high fidelity prototypes for clients including:

- **AptAmigo:** Redesigned renter's apartment finding experience and created a new apartment tour booking system. Designed a brand new lead generation workflow for leasing agents.
- **Ember Beauty:** Redefined client's target persona and designed a brand new product and mentor matching workflow, including scheduling, rescheduling, and managing preferences.

REDGATE SOFTWARE | Manager - New Business, Special Projects Pasadena, CA / October 2013 - May 2016

- Hired and developed highly effective teams. The New Biz team was responsible for ~\$900k of monthly AMER revenue and met or exceeded target consistently for 10 quarters.
- Led cross functional meetings with engineering, product, and customer experience to ensure user needs and recommendations influenced engineering decisions early in the development of new products and were accounted for in major and minor releases.
- Developed and implemented best practices to maximize pipeline integrity and creation, customer acquisition, retention rates, forecasting accuracy, and cross team collaboration.
- Created ideal customer profiles, user journey maps, interview plans, and revamped sales whiteboard metrics; providing first-ever sales standardization across both US sales teams

REDGATE SOFTWARE | Account Executive - SQL Tools Pasadena, CA / March 2012 - September 2013

- Exceeded 100k monthly sales quota by 20-30% for 18 months consecutively while maintaining an 85% SAL/win rate consistently. Closed largest ever new business deal, 192k.
- Led usability studies with targeted clients to deliver feedback and insights to product managers and engineers to improve SQL Source Control.
- Shifted the company's sales model to focus time on understanding user needs and requirements which shortened the sale cycle from 4 weeks to 2 weeks for deals under \$10k and increased customer retention by 10%.
- Taught "SQL Server Best Practices" to DBAs, senior developers, and software architects through product demos at industry events such as Microsoft PASS Summit.
