

Reservation Software Registration

We use MindBody as the reservation software for the Fitness Center, Athletic Performance Center, Resort Cabana Reservations, Sports Courts, and Lifestyle Events.

All adult residents need to create separate accounts.

Minors may be added as "Family", so you can toggle between accounts and register them for activities.

Step 1:

Type the URL into your browser or scan the QR code: <https://clients.mindbodyonline.com/consumermyinfo?studioid=5733568>

- New to MindBody? Click Create Account and follow the prompts.
- Already have a MindBody account? Sign in with your credentials.

Step 2:

Once your account is created, confirm your email, and login to complete your profile.

Added Minors? Make sure to toggle to their account at the top right to complete their profile as well.

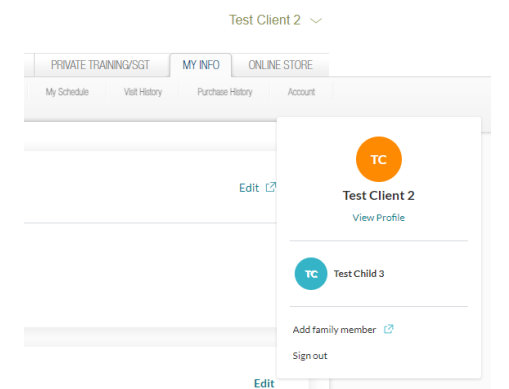

Step 3:

Visit the Resort Fitness Center or email ciera@lwrstarfarms.com to finish registration. You will not be able to sign up for any offerings online until this portion has been completed.

Add Family Members:

If you forgot to add minors during registration, follow these steps.

- Click on your name at top right > select Add Family Members > Scroll down to Family > Click add for each person.
- Go back to the main login screen and click on each person's name to complete the profile.
- Once the profiles are complete, let us know so we can activate them as residents.
