

Recordings of Milton H. Erickson

During various times throughout his professional career, my father, Milton Erickson, permitted colleagues and students to make audio or video recordings of his work. Some of these recordings have been turned into valuable teaching tools. On behalf of my family, I request that anyone having original recordings made of Dr. Erickson to please let us know. We are deeply grateful to those colleagues and students who took the initiative to record sessions with him, and it is a rare treat for us to discover such a recording of which we had previously been unaware. Our intentions in locating these materials is for personal, and family enjoyment. If you have such materials and have not previously communicated this to either me or my mother, Elizabeth Erickson, please call one of us. My phone number is (214) 526-9634.

— Thank you,
Roxanna Erickson Klein.
