SECURITY & TECHNOLOGY LEADERSHIP

Strategic • Adaptable • Results-Oriented • Entrepreneurial • Financially Savvy

Dynamic Security Executive who:

- Combines deep technical and security expertise, superior interpersonal skills, solid budget planning and management, and a visionary mindset to drive dramatic transformation.
- Thrives in a wide range of environments – from startups to multi billion-dollar market leaders.
- Analyzes current and evolving security trends to develop long-term risk management processes and solution architectures.
- Leverages experience in various retail environments to deliver targeted, cost effective positive outcomes.
- Resolves complex, long-standing, mission critical challenges – rapidly and effectively.
- Verifiable experience in building productive, successful organizations using existing resources or from the ground up.
