

We will deliver our quality math instruction in-person and online via *Mathnasium@home*

Mathnasium Summer Workouts

At Mathnasium, we believe that every child has the ability to be successful in math-it's a matter of teaching in the way that makes sense to them.

Studies have shown that over summer vacation, *students can lose over two months of math computational skills* learned during the school year. Our summer programs are designed to combat summer learning loss. We'll help your kids retain all they learned in math class this year, so they're well equipped for a strong start in the fall.

Enroll now in our summer program as summer is the perfect time to catch up or get ahead. When math makes sense, kids excel-confidence in math is confidence for life!

Summer Program Highlights & Topics:
