MedicaSoft

Who We Are

MedicaSoft is a healthcare information technology company headquartered in Arlington, Virginia specializing in the delivery of an innovative data platform combined with an all-embracing healthcare analytics solution. MedicaSoft also has a robust Electronic Health Record (EHR) and a consumer-empowering Personal Health Record (PHR). In addition to its unique platform approach to health information exchange, the company is also an accredited Health Information Service Provider (HISP) offering Direct Secure Messaging services.

How We Can Help

MedicaSoft's solutions assist healthcare providers, health exchanges, employers and all healthcare consumers by improving health outcomes and transforming data to useful and meaningful information. MedicaSoft supports more efficient and relevant decision-making with our healthcare offerings empowering patients and their families to manage health and wellness. MedicaSoft enables the healthcare industry to deliver high quality, data driven, efficient care with confidence.
