

## **Mark Hooker Biography**

Mark joins the MedicaSoft team from BuyerFirst, a startup company where he served as CTO. He brings over twenty years of software services, project management, and product and process development consulting experience to the team. Mark provided consultative services to the U.S. Department of Veterans Affairs (VA) and National Aeronautics and Space Administration (NASA). Prior to becoming a consultant, Mark worked for PTC Global Services as a Project Manager leading Windchill Implementations and various projects for clients such as Bose Corporation, EMC Corporation, VARCO, Asahi Matsushita, Adidas, BMW, Lamborghini, Hughes Electronics, Ford, Volvo, SKF, Hyundai, LG Electronics, Samsung, Mitsubishi, and Toyota. Prior to his career in project management, Mark worked as an Application Engineer and Senior Technical Specialist at PTC and as an Engineer at General Dynamics. Mark holds a Bachelor of Science in Mechanical Engineering from the University of Maryland.
