

Coffee Maker

1. Press the Power Button. The Add Water Indicator will flash blue.
2. Lift the Cold-Water Reservoir lid. Pour water anywhere within the Cold-Water Reservoir until it reaches up to the rim of your desired fill level on the Water Level Guide.
3. Lift the Handle. Water starts to drain from the Cold-Water Reservoir into.
4. Place mug on the Drip Tray.
5. Insert the K-Cup® pack into the K-Cup Pack Holder.
NOTE: Do not remove the foil lid or puncture the K-Cup.
6. Wait until all water has drained (5 seconds) into the brewer before lowering the Handle. The BREW Button will flash blue. Press the BREW button.
7. The BREW Button will flash red to indicate that the water is heating. After about 2 minutes, the BREW Button will turn solid red when the beverage starts brewing.
8. Your brewer is ready to use. Enjoy your beverage!
