

The Noise Control Engineering Journal – Volume 73, Issue 1

January – March 2025

Table of Contents

[Detection and identification of solid emboli and gas emboli in simulated blood using ultrasonic doppler](#)

pp. 1-13(13)

Authors: *Li, Xiaogao; Liu, Qing; Dai, Hefeng; Shewn, Guolang; Wang, Xingguo*

[Research on the design of hear-through controllers for active noise control headphones based on cascade biquad filters considering different directions of sound arrivals](#)

pp. 14-23(10)

Authors: *Li, Mengxue; Li, Hao; Liu, Zhongyuan; An, Fengyan; Liu, Bilong*

[A novel method for fast calculation of the noise emission from an axial piston pump](#)

pp. 24-37(14)

Authors: *Ye, Shaogan; Xia, Xiaosong; Huo, Liang; Wu, Dehui; Wang, Yutao; Zhao, Shoujun; Liu, Huixiang; Zheng, Zhijian*

[Application of multivariate adaptive regression splines technique for blast-induced air overpressure control in mines using large dataset](#)

pp. 38-56(19)

Authors: *Rana, Aditya; Singh, Atul; Komadja, Gbétoglo Charles; Agrawal, Hemant; Singh, Rakesh Kumar*

[Case study: OtologMap: a case study on the construction of an environmental sound map recorded by smart devices at Okayama and Kurashiki](#)

pp. 57-68(12)

Authors: *Hara, Sunao; Abe, Masanobu*

[Occupational Noise Exposure of Farm Operators: Hazards and Controls](#)

pp. 69-76(8)

Author: *McCullagh, Marjorie C.*

[Design and optimization of exhaust muffler for L24 diesel engine](#)

pp. 77-94(18)

Authors: *Zhang, Yongchao; Zhao, Shuai; Zhang, Shengu; Bei, Guangxia; Chen, Qingguang; Chu, Liang*

[Case study: Sub-metamaterials for Broadband Aircraft Noise Reduction Across Low and High Frequencies](#)

pp. 95-105(11)

Authors: *Kone, Tenon Charly; Ghinet, Sebastian; Panneton, Raymond; Grewal, Anant*

[Case study: Sensitivity analysis of transmission loss through treated composite panel: An experimental and numerical study](#)

pp. 106-116(11)

Authors: *Cherif, Raef; Christen, Jean-Loup; Ichchou, Mohamed; Atalla, Nouredine*

[Study on a key transfer edge control method for cabin noise control](#)

pp. 117-130(14)

Authors: *Liu, Zhenzhen; Wu, Siyuan; Ma, Ruisheng; Rong, Kunjie; Li, Na*

[Acoustic diffusion described using the largest Lyapunov exponents](#)

pp. 131-149(19)

Authors: *Song, Henglilng; Hargreaves, Johathan A.*
