

WEAO COMMITTEE SPOTLIGHT

Climate Change Committee

Conference Session | April 12

Join the OWWA/WEAO Climate Change Committee on ***Sunday, April 12, from 1:00–3:00 p.m. room 203*** for a Methane Measurement Knowledge Exchange at the Niagara Conference Centre.

Kicking off just ahead of #WEAO2026, this session is the perfect way to arrive early and dive into an important and often ignored topic in the wastewater sector. The agenda brings together leading perspectives on methane—what it is, why it matters, and practical methods of measuring it in wastewater facilities.

We're grateful to an outstanding group of speakers and industry partners for sharing their expertise, including Jeremy Kraemer; Ruqiao (Emma) Shen, PhD, P.Eng; Sam Reifsnyder, PhD, PE; Michael Nelson, PhD, P.Eng; Elsayed Elbeshbishy; John Leitel (KONICA MINOLTA, INC.); Stu McDonald (Pine Environmental Services LLC); Dr. Peter Barber III, MBA (Bridger Photonics)—and yours truly.
