Androgens paid apk

AndroGens is a MegaDrive emulator, also called Genesis in the rest of the world. This emulator has been downloaded more than 2 million times (for the free version)! After a long hiatus, the development of this application has resumed ... Thank you all for your support :) This application simply provides the virtual system for the MegaDrive; it doesn't offer games. You have to get the games yourself. Under the law, we can't explain how to get these games, and so won't. + Compatibility at 99.9% with MegaDrive games + Customizable Touch Buttons (size and position) + Easy-to-learn interface + Ability to store parts + Code optimized to battery + Full support of physical controllers + Support of XPeria Play Home/Tag Archives: AndroGens (No ads) v1.10 paid apk download AndroGens very special offer Apktops Fully updated to the latest version Only one of the guys during the 60 word console Sega and then the overall memory of the bitter and the sweet of the day in his mind are suggested. If you want to limit the console and games just an Android app that will introduce Apktops ... DOWNLOAD NOW AndroGens is an emulator for Genesis, also called Megadrive in Europe.It features:- 99.9% compatibility on Genesis games- Customizable on-screen buttons (size and position)- Easy to use GUI- Save state- Optimized code to save battery life- Full support for physical controllers- XPeria Play support- Support of ROMS with .gen, .bin and .md extensionsThis emulator has been downloaded more than 2 million times! After a fairly long hiatus, development on this app is underway again... Thank you everyone for your support :)This app simply the virtual system for Genesis/Megadrive; It doesn't offer a single game. You have to get roms for games you own over the web. We can't and won't explain to you how you get them. This is a free version of AndroGens, which contains ads. Check our other apps for a paid version of AndroGens that doesn't include ads. This application is open source. It is licensed under GPLv2.You gplv2 license read here: is based on the code of DroidGen, which is also licensed under GPLv2, and which is also based on components such as Genesis Plus GX (which is also GPL'ed). You the source code here: app is in no way affiliated with SEGA. It is not approved, endorsed, supported or produced by SEGA. Megadrive and Genesis are trademarks of SEGA.
