

CONSOLIDATED REPORTING FORMS

Use this set of forms to consolidate the assessment and improvement planning data you have collected from your sites. Once complete, submit the forms online at www.ymca.net/communityhealthylivingindex to create a report to the Community team. This summary enables the Community team to gain a deeper understanding of various sectors of the community, glimpse the stage of development of local sites, gather ideas for improvement, and gauge readiness for local improvement. All of this information should substantially contribute to the community improvement plan.

INSTRUCTIONS

Depending on your situation, you may want to assign the task of completing this form to a single coordinator or engage the whole team in the process. If you decide to complete the form as a group, make the sites' responses available to team members for easy reference.

Step 1 Gather paper copies of all completed Discussion and Improvement Planning Guides from each of your sites.

Step 2 In the Discussion Questions section of the Discussion and Improvement Planning Guides, sites have (1) reviewed and summarized their assessment responses and (2) determined the likelihood of their site to make improvements in that area. Transfer these Discussion Question responses to the Summary Charts that follow. Complete a Summary Chart for each of your sites.

Step 3 Consider the concerns, improvement ideas, and other comments you have received from all sites of each type (e.g., all schools, all neighborhoods, etc.) and organize them according to priority. Record the top concerns and improvement ideas in the Consolidated Improvement Plan Chart. Place them in the column for short- or long-term ideas as appropriate.

Step 4 Notice the strengths of each site and brainstorm ideas for how to reward and encourage procedures, innovations, decisions, and any other assets or developments that support healthy eating and physical activity. Record your observations and ideas in the Consolidated Improvement Plan Chart.

Step 5 Once complete, submit your Consolidated Reporting Forms online at www.ymca.net/communityhealthylivingindex.

Note: If time and resources allow, review the assessments against your completed Consolidated Reporting Forms to ensure they accurately reflect sites' original assessment responses.
