

Service-Ready. Community-Focused.

Strategic Communications specializes in empowering state and local government agencies with smarter technology solutions. We understand the unique challenges facing your community—from tight budgets to evolving citizen expectations. As your trusted technology partner, we deliver cost-effective, scalable solutions that enhance public services while maximizing taxpayer value and strengthening community outcomes.

Signature Solutions

Cyber Security

- Visibility
- Detection & Response
- Access Control
- Governance & Protection
- Operational Backbone

Cloud Migration & Modernization

- Migration Accelerator
- Multicloud Adoption
- Infrastructure Modernization

Responsible AI

- AI-Powered Applications
- Secure AI Framework
- AI Vision

Enterprise Applications

- Business Applications
- Cloud Native Development
- Software as a Service (SaaS)

Advisory & Strategy

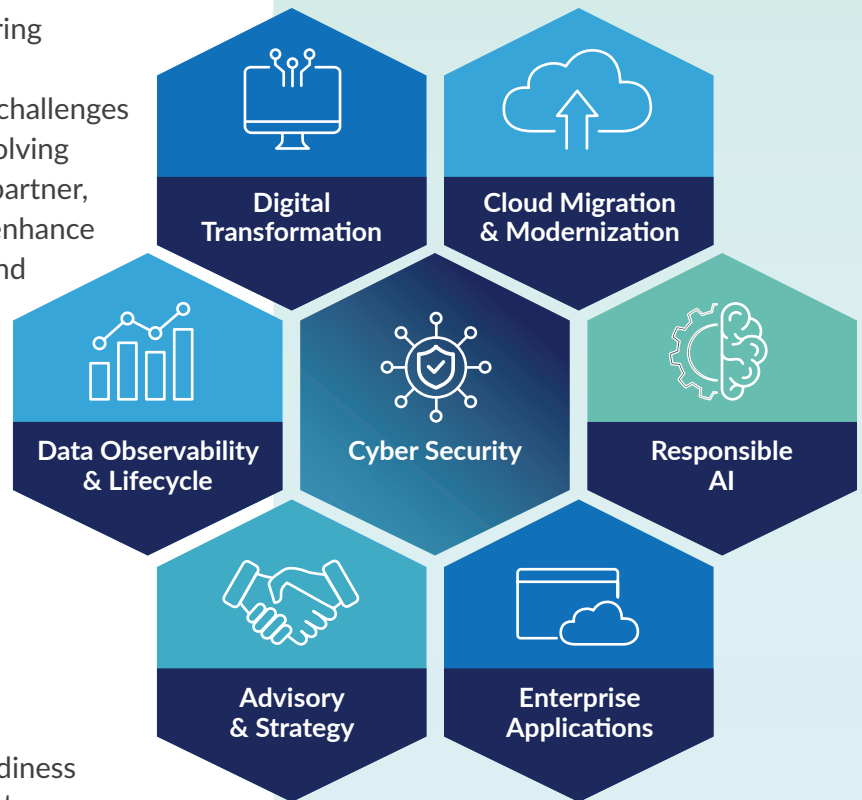

- Cloud-Readiness Assessment
- CCoE Implementation
- Professional Services

Data Observability & Lifecycle

- Data Lake Architecture & Federation
- Dashboards & Reporting
- Data Migrations

Digital Transformation

- Customer Experience
- Business Process Optimization
- Financial Optimization

Strategic Advantages

- Dedicated SLED cloud expertise
- Extensive state contract portfolio
- Cost optimization without commitments
- Data sovereignty & compliance excellence
- Streamlined procurement & billing

Notable Projects

State Data Protection Initiative

Strategic Communications deployed a comprehensive cybersecurity solution combining AWS Backup Services and Commvault to protect critical state data from ransomware attacks. Our immutable backup system scaled to manage over 10 petabytes of data while ensuring full compliance with state and federal requirements, helping the agency avoid tens of millions in potential attack costs.

Multi-Agency Cloud Modernization

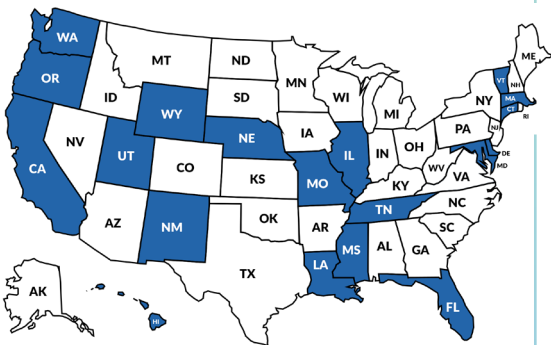

Strategic Communications partnered with a state's Department of Information Technology to accelerate cloud adoption across Health and Human Services and other agencies. Our scalable AWS infrastructure solution achieved 99.95% service availability while improving scale by 30% during peak usage periods and maintaining compliance with CSA STAR, ISO/IEC 27017, and NIST standards.

Mississippi Cloud Solutions Preferred Vendor

As Mississippi's sole CSPV provider, Strategic Communications modernized the state's cloud procurement process across all agencies. Our comprehensive solution streamlined access to AWS and Microsoft Azure services, reducing procurement timelines and administrative burden while expanding agencies' access to innovative cloud solutions.

State & Local Government Contracts

- NASPO ValuePoint Cloud (AR2490): 19 participating states
- Sourcewell (030425-STRC)
- NYS OGS IT Umbrella Lot 3 (PM69693)
- OMNIA (R220802): Region 4 EXC
- Equalis Group (EQ-013120-01)
- G2G Marketplace (EQ-013120-01)

Federal Government Contract Vehicles

NASA SEWP V, Groups C & D

- IT equipment & services for Federal agencies
- Multiple agency catalog
- 10 Year, \$20B ceiling
- Contracts: NNG15SC90B, NNG15SC50B

GSA IT Schedule 70

- Cloud & cloud-related professional services
- Contracts: Cloud 47QTCA21D007U, MAS 47QTCA19D00DH

2GIT - (GSA BPA)

- Contract: 47QTCA21A000W

Army Digital Market ITES-4H

- 10 Year, \$10B ceiling
- Contract: W519TC-25-D-A040

Army Digital Market ADMC-3

- Computer & printer equipment
- 10 Year, \$5B ceiling
- Contract: W52P1J-19-G-0050

NITAAC CIO-CS

- GWAC contract managed by the NIH CIO
- Contract: HHSN316201500048W

Army Digital Market ITES-SW2

- Software solutions
- 10 Year, \$13B ceiling
- Contract: W52P1J-20-D-0065
