LME Communication Solutions

Enterprise Global offer

Commercial Catalog

Italy - February 2008
1. **Platform Communication Services**

1.1 **System cabinets**
- Enterprise Base System - Rack module
- Enterprise Base System - Crystal
- Enterprise Base System - Appliance server
- Enterprise Base System - IP Communication Server
- IP Media Gateway
- IP Remote Unit for Branch Office

1.2 **OmniPCX Common hardware**
- Public & Private accesses
- User interfaces
- Infrastructure
- Mechanics
- Power supply back-up
- Additional equipments & Remote maintenance
- System cables

1.3 **OmniPCX Crystal Hardware**
- Public & Private accesses
- User interfaces
- Infrastructure
- Mechanics
- Power Supply
- Additional equipments & Remote maintenance
- System & MDF cables

1.4 **OmniPCX Software**
- Business software options
- Network software options
- User Profiles software packs
- Communication Server engine
- Desktop Communication services
- Mobility services
- Voice & Media services
- Call Handling services
- VoIP services
- SIP services
- Security services
- Networking services
- Accounting management services
- Directory, Configuration, Alarms & Performance management services
- Hospitality & Healthcare services
- System Release

1.5 **Operator Attendant consoles**

2. **OmniMessage**

2.1 **4645 Voice mail**

2.2 **4635 Voice mail**
- 4635 Voice mail Hardware
- 4635 Voice mail Software

2.3 **External Voice mail**
## OmniVista

3.1 4760

- Network Management application
- Options and upgrade

## OmniTouch Contact Center

4.1 **OmniTouch Contact Center Standard Edition**
- CCdistribution & Advanced Call Routing
- Ccsupervision
- Ccinterfaces
- Ccagent
- Ccoutbound
- Ccemail

4.2 **OmniTouch Contact Center Premium Edition**
- Interaction CC
- Actionable CC
- Exposure CC
- DVD & Releases

4.3 **OmniTouch Contact Center Common Edition**
- Self Service - CCivr
- Wallboard

## User applications

5.1 **OmniTouch Unified Communication**
5.2 CSTA interfaces
5.3 TAPI/TSAPI Interfaces
5.4 XML Interfaces

## Sets & On site mobility equipments

6.1 **Desktop sets**
- 8 Series IP Touch sets
- 9 Series digital sets
- Options for 8&9 Series sets
- Accessories for 8&9 Series sets
- Common option and accessories for 8&9 series and Reflexes™ sets
- Power supply for sets

6.2 **DECT on site mobility equipment**
- DECT handsets
- Accessories for DECT handsets
- Indoor & Outdoor Base stations
- Accessories for base stations

6.3 **WLAN On site mobility equipment**
- WLAN handsets
- Accessories for WLAN handsets
- VoWLAN servers
- Accessories for VoWLAN servers

### Service and Support
1. What is Alcatel-Lucent OmniPCX Enterprise?

The Alcatel-Lucent OmniPCX Enterprise is a standards based open-distributed communications server for both medium and large enterprises, allowing both traditional and IP configurations for the world's most scalable (50 to 100K), advanced business communication services and applications.

2. What are the key benefits of Alcatel-Lucent OmniPCX Enterprise?

The Alcatel-Lucent OmniPCX Enterprise solution answers the current and future upgrades that are imposed by rapidly changing business communications needs. A set of value propositions for your company are provided together with the Alcatel-Lucent OmniPCX Enterprise solution.

Enterprise Rich Telephony

Enterprise Rich Telephony has been raised from a long and rich experience acquired from the OmniPCX family of Alcatel-Lucent PBXs, which include: user-friendly digital terminals and operators’ features; embedded voice mail application, group telephony, manager-assistant features, PC telephony etc., all of which are designed to increase your company’s overall productivity.

On site & Off Site Mobility

On site & Off Site Mobility: Alcatel-Lucent OmniPCX Enterprise delivers campus mobility and allows each employee to have a single phone number regardless of his location. An exceptionally well-designed and ergonomic range of terminals is available for your mobile employees, providing them with all telephony services.

Borderless Solutions - Unified communications

Alcatel-Lucent OmniPCX Enterprise is a true borderless solution, providing the same level of functionalities, the same user interface and user rights, regardless of the user’s location, whether he is at the headquarters, in a branch office, or even at home. Employee productivity also becomes borderless.

Best of Class Customer Relations

Best of Class Customer Relations, the Alcatel-Lucent OmniPCX Enterprise customer greeting application reflects the best image of your company with 24/7 welcome functions, making customer interactions fluid and straightforward.

Native IP Wired or Wireless Solutions

Native IP Solutions enable you to optimize your cost in any environment of your communication solution (traditional cabling, IP multi-site, LAN telephony with IP phones) allowing you to upgrade from legacy TDM topology to IP technology in both wired or wireless environment.

Simplified Management

Alcatel-Lucent Omnivista 4760 allows you to access the configuration of your system in a minimum amount of time and to optimize the tasks of the management of your system.

Robust, Reliable, Standard and Open Solutions

Alcatel-Lucent OmniPCX Enterprise is based on a client-server model. It integrates seamlessly in any environment, whether it is the IP infrastructure, the application, voice and management environments, and ensures seamless deployment. The robustness and reliability of Alcatel-Lucent OmniPCX Enterprise is built around the award-winning OmniPCX family of solutions. The Alcatel-Lucent OmniPCX Enterprise solution can grow with present and future business at your pace.
3. How are the Alcatel-Lucent OmniPCX Enterprise solutions positioned?

The Alcatel-Lucent OmniPCX Enterprise Global Offer is designed to address the both business segments namely “Business Offer” which addresses the mid-market segment and the “Large Corporate Offer” which addresses the large and multinational corporations market segment.

**Business Mid-Market Segment:**

Alcatel-Lucent positions the Mid-market as the segment of 100-1000 employee companies. Obviously the size of these companies in terms of number of employees physical footprint remote locations is different from Large (>1000 employees) and small (<100 employees) companies.

*Business integrated Communication Solution* (BiCS) is specifically developed for the lower end of Medium Enterprise segment, mid-sized enterprise from 100 up to 500 employees initially. BiCS is a multi-service mono-server communication solution based on the Alcatel-Lucent OmniPCX Enterprise Communications Server plus key communication applications that come standart, pre-integrated, and ready to be used in a single server (Integrated Management, Contact Center, key unified communications, openness to third-party applications; remote activation of new applications and user licenses; high reliability with RAID 1 hard disk mirroring.

**Large Corporate Offer Segment:**

To satisfy the needs of large, multinational corporations so they may achieve their business objectives, Alcatel-Lucent has developed a set of dedicated solutions.

Alcatel-Lucent Corporate Communication Solutions give enterprises the opportunity to implement a comprehensive Competitive Transformation Framework to generate new business and build a real competitive advantage.

4. How to sell & order Alcatel-Lucent OmniPCX Enterprise solutions?

The Alcatel-Lucent OmniPCX Enterprise offer is built around commercial bundles based on Rack common hardware or Crystal hardware addressing medium to large enterprise markets segments. To ease and speed sales, especially in medium market, pre-packaged systems and customized systems are provided both orderable via quotation tools.
4.1. Alcatel-Lucent OmniPCX Enterprise commercial offer

The system cabinets packages for small to medium sized businesses
The system cabinets are built for traditional connectivity (TDM) and can smoothly move to the IP environment (IP ready). They are packaged to be "ready to use" and includes a Rack Call Server processor (CS Aspen) and a Rack Gateway Driver processor (GD board) in the same "common hardware" Rack chassis plus some client software licenses. "Common hardware" Accesses and Interfaces boards must be added according to customer configuration. The "in the skin" packages based on common hardware are particularly suitable for small & medium voice oriented companies.

The system cabinets packages for medium to large sized businesses
The system cabinets are built for traditional connectivity (TDM) and can smoothly move to the IP environment (IP ready). They are packaged to be "ready to use" and includes a Crystal Call Server processor (CPU6, CPU7) and a Crystal Gateway Driver processor (INTIP board) in the same "Crystal hardware" chassis plus some client software licenses. Crystal Accesses and Interfaces boards must be added according to customer configuration. The system packages based on Crystal hardware are particularly suitable for medium to large voice oriented companies.

The IP communication server package for IP distributed medium to large businesses
The IP communication packages based on Alcatel-Lucent Rack1 hardware or on a third partner hardware (Appliance) target full IP distributed system architecture. The IP communication server package is the core of the IP network. The packages must be complete with IP Media Gateways and software licences (e-CS engine, users licences …) to reach the required customers capacity and services.

The IP Media Gateway packages to reach or extend the system capacity
The principal function of the Media Gateway is to ensure the management of the "classical" legacy interfaces (analogue, digital, PSTN, ISDN), the Voice over IP gateway features if required, the telephony conferencing, the voice guides and music-on-hold. Each Media Gateway comes with a Gateway Driver processor controlled by the Call Server processor over an IP connection (Ethernet link, LAN, WAN). These packages are suitable to extend the capacity of a Base system package or to built a distributed architecture linked to an IP communication server package. The IP Media Gateway packages are based either on Common hardware for small to medium capacity in a dedicated zone or on Crystal hardware for medium to large capacity in a dedicated zone.

The IP Remote units packages for small branch offices in a central architecture.
To target Branch Offices as IP remote units in a Central multisite architecture, specific IP Media Gateways packages have been defined. To target very small remote Branch Offices and address effectively low prices issues, IP remote units packages based on Rack1 chassis are proposed. For larger remote Branch Offices, the standard IP Media Gateway packages are fully convenient in term of capacity and prices.
4.2. Alcatel-Lucent OmniPCX Enterprise commercial catalog

The global commercial catalog (GCC) gathers all commercial items addressing the different Alcatel-Lucent OmniPCX Enterprise market segments.

The catalog is available under two different format:

* a digital catalog on BPWS which means:
  - Information always up-to-date with product description and pictures
  - One-stop shopping with easy step-by-step product selection
  - Automatic order validation
  - A real time tracking of your orders

* a printed catalog:
  As you know, it's always practical to have the printed catalog to have a clear and rapid view of the structure of the commercial offer. Thanks to its handy format, you can take it to the client's premises.

The printed catalog is composed of ten main chapters:

- the "SYSTEM CABINETS" chapter contains:
  All Alcatel-Lucent OmniPCX Enterprise TDM or IP base systems to build a customer solution.

- the "IP MEDIA GATEWAY" chapter contains:
  All IP Media Gateways to build a customer solution.

- the "HARDWARE" chapter contains:
  All hardware necessary to complete one solution.

- the "SOFTWARE" chapter contains:
  All software licenses to open or extend the features of one solution.

- The "User Profiles" chapter contains:
  new commercial offer based on user profiles, targeting mid & large enterprises.

- The "SECURITY" chapter contains:
  All software licences and hardware component related to IPTouch Security solution

- the "TERMINALS" chapter contains:
  All desktop terminals necessary to equip one solution.
- the “MOBILITY” chapter contains:
  All mobile equipments necessary to equip one solution.

- the “APPLICATIONS” chapter contains:
  All applications or standard API to enrich one solution with external applications.

- the “DATA INFRASTRUCTURE” chapter contains:
  All software licenses and equipments necessary to equip our solutions with data equipments

- the “SERVICES” chapter contains:
  All services for the end-customer or the business partners, the documentation or maintenance items or peripheral equipments.

-the “PC SERVER & STATION” chapter contains:
  All references of PC platform, server and workstation and related as printer...

- The “MIGRATION PACKS” chapter contains
  All promotionnal packs which can be ordered for a migration towards OmniPCX Enterprise R8.0. Notice that such packs can only...

- The “CHANGES” chapter contains:
  All references which have been removed or added in this edition

For each catalogue item and when relevant, we introduced the Service Index associated to the Software Evolution Service or Software Maintenance Service.
5. How to quote & order Alcatel-Lucent OmniPCX Enterprise ?

5.1. Alcatel-Lucent OmniPCX Enterprise quotation
To build and quote a solution according to customer needs either for a first sale or for an add-on sale, different means are offered via electronic quotation tools which should be used preferably:

- Electronic quotation tools:

  * ACTIS for all offers:

  ACTIS is an extensive quotation tool which covers the entire Alcatel-Lucent OmniPCX Enterprise commercial offer. ACTIS is particularly suitable for the salesforce targeting customers who need to build a fully tailored optimised solution with high value added services such as Voice over IP in networking environnement or third party CTI applications interaction or complex Call Center applications … ACTIS is an off-line electronic tool which can be deployed largely on salesforce PCs.

  A new simplified quotation interface is introduced in ACTIS to enable a wider salesforce to quote and promote OmniPCX Enterprise offer without limitation especially on the mid market.

  Use ACTIS on your PC and enter all the functional needs of your customer to quote the most optimised tailored solution. Use ACTIS for both first sales and add-on sales.

  The output of both quotation tools is a commercial customer proposal and an electronic order (list of references) that can be directly interfaced with the Business Partner Web Site.

5.2. Alcatel-Lucent OmniPCX Enterprise order

Two ways to order through BPWS are offered:

- the upload of the order files:

  You can order a customer solution by uploading directly the electronic files coming from the quotation tools ExpressQuote or ACTIS. In such way, your order will be automatically tagged as "Built To Customer Order" and the system purchased will be configured in the factory.

- the direct keying on BPWS:

  You can directly key-in your order from the BP Web Site through the on-line catalogue and fill in your shopping cart by selecting individually the commercial items. Your order will be tagged as "non BTCO" and the commercial items purchased will be delivered separately.

5.3 Alcatel-Lucent OmniPCX Enterprise Software maintenance
With any OmniPCX Enterprise configuration, you should quote and propose a Software Maintenance service in order to allow your customer to maintain his configuration up-to-date. Software Maintenance Service or Software Evolution Service are now available, depending of the product service type of each product item.
6. Glossary

Indicates some advice or important information.

New
All items flagged with this icon "NEW" are new items introduced within this offer.

CCxx
All items flagged with this icon "Disc" have their discount coefficient been changed.

Price
All items flagged with this icon have their price been changed.

Ref
All items flagged with this icons have their reference been changed, part of reference modified is underlined (ex: 3BH11616AB)

Cat
All items flagged with this icons have their WPL category modified (notice that CC41 & CC42 are no more used)

Indicates a software license.

### Enterprise Base System - IP Communication Server

**Alcatel-Lucent OmniPCX Enterprise IP communication server cabinet**

**IP Communication servers content:**
The IP Communication Server is the core of the IP network: It supports the Communication Server engine for the management of IP Media Gateways and provides access to a high level of telephony services for the whole IP network. According to the size of the whole installation, two models are offered: The Rack server for medium installations and the Appliance server for large sized ones.

### Alcatel-Lucent OmniPCX Enterprise IP Media Gateways

**IP rack Media Gateways contents: common Rack hardware**

The IP Media Gateways manage the accesses and interfaces of a customer solution. The IP Media Gateway is controlled by the Communication Server through an IP connection. The IP Rack Media gateway is managed thanks to a Gateway Driver processing unit and handles the "classical" legacy Rack interfaces to connect terminals, public accesses or auxiliary interfaces. The IP Rack Media Gateways address medium to large capacity.

**1. Platform Communication Services**

**IP Remote Unit for Branch Office**

### IP Rack remote units contents: for remote control IP Branches

The IP Rack remote units manage the accesses and interfaces of a customer solution. The IP Rack unit is controlled by the Communication Server through an IP connection. The IP Rack remote units address small branch offices with remote control needs. Various packages are defined to address price effectively for small units (8/12 users) or for full IP configurations.

- **Alcatel-Lucent IP Remote Unit 8 up to 8 users, 110/230V (must be used with external battery and rack)**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board
  - mixed board with 2 T0 + 4 UAI + 4 SLI (MIX2/4/4)

- **Alcatel-Lucent IP Remote Unit 8 up to 8 users, 48V**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board
  - mixed board with 2 T0 + 4 UAI + 4 SLI (MIX2/4/4)

- **Alcatel-Lucent IP Remote Unit 12A up to 12 users, 110/230V (must be used with external battery and rack)**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board
  - mixed board with 4 T0 + 4 UAI + 8 SLI (MIX4/4/8)

- **Alcatel-Lucent IP Remote Unit 12A up to 12 users, 48V**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board
  - mixed board with 4 T0 + 4 UAI + 8 SLI (MIX4/4/8)

- **Alcatel-Lucent IP Remote Unit 12D up to 12 users, 110/230V (must be used with external battery and rack)**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board
  - mixed board with 4 T0 + 8 UAI + 4 SLI (MIX4/8/4)

- **Alcatel-Lucent IP Remote Unit 12D up to 12 users, 48V**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board
  - mixed board with 4 T0 + 8 UAI + 4 SLI (MIX4/8/4)

- **Alcatel-Lucent IP Remote Unit X-IP for IP users, 110/230V (must be used with external battery and rack)**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board

- **Alcatel-Lucent IP Remote Unit X-IP for IP users, 48V**
  - One rack 1 module & Gateway driver processing unit GD
  - MADA-3 board

1. Platform Communication Services

1.2 OmniPCX Common hardware

Alcatel-Lucent OmniPCX Enterprise
Common Hardware

Alcatel-Lucent Rack common hardware - Connectivity boards for public and private accesses

Connectivity boards:
The connectivity boards offer different types of communication ports as ISDN/analog accesses or digital/analog voice interfaces or data interfaces...
All boards are identical and based on data formats. Voice and data connectors are RJ45.
Optional processing units or DSP boards are offered to boost the application capability.
Each hardware board takes a slot in a cabinet, except daughterboards (AFU-1, MCV, MADA ...)

Alcatel-Lucent Rack common hardware - Hardware & infrastructure extensions

IP Media Gateways infrastructure:
Optional hardware resources are offered to enrich services as Voice mail, Conferenceing, ...
For redundancy services Redundancy hardware server is proposed. For remote maintenance, a set of components as Remote maintenance server pack are poroposed.
To extend the size of an IP media Gateway, Rack modules can be used linked together (max three cabinets).
Comprehensive and suitable power backup solutions are offered to fit power power autonomy requirements.

Public & Private accesses

1.3 OmniPCX Crystal Hardware

Alcatel-Lucent OmniPCX Enterprise
Crystal Hardware

Alcatel-Lucent Crystal Hardware - Connectivity boards for public and private accesses

**IP Crystal Media Gateways connectivity:**

On top of "classical" connectivity as ISDN/analog accesses or digital/analog voice interfaces, the Crystal connectivity boards offered specific public or private digital or analog accesses as PCM2, AT-Q23 ... or DECT interfaces boards for Radio Base Stations (RBS) or the GPA boards for extended conferencing, voices guides, music on hold and The INT-IP access board is used to manage the Crystal Media Gateway interfaces.

Alcatel-Lucent Crystal Hardware - Hardware & infrastructure extensions

**IP Crystal Media Gateways infrastructure:**

To build the IP Crystal Media Gateway, different hardware components are offered in addition to the connectivity boards:
- Mechanics components: Voice Hub (VH) or M2 or M1 with connectors or M2 or M3,
- Redundancy server hardware pack, remote maintenance items,
- Various Power Supply, Autonomy & Protection components & Cabling components.

Public & Private accesses

- 12/16 kHz charge unit detector (4) card for analog trunk board
- PCM2 board, pulse code modulation board (1)
- BRA2-1 board, T0 basic rate access (8)
- RT2-1 board remote connection through leased T2 links
- TNLO21 board optical fiber link (2)
- ACEM board, 4 analog tie lines: 2x50HZ+ 2xE&M, or 4xE&M
- TNLO11 board optical fiber link
- DPT1 board, T1 2 x primary rate accesses (24)

#### GPA2 board: conf 29, Dynamic + Static (4 language) Voice Guide
- **3BA23241AA AA15** 1450,00 EUR

#### 10/100BASE-T connector
- **3BA23243AA AA15** 200,00 EUR

#### CPU7 board
- **3BA23259AA AA15** 4570,00 EUR

#### CPU7-2 board
- **3BA23259AB AA15** 4570,00 EUR

#### INTO F2 board: Inter Crystal board
- **3BA23260AA AA15** 1500,00 EUR

#### GIP4-4 board
- **3BA23263AA AA15** 3650,00 EUR

#### GIP4-1 board
- **3BA23264AA AA15** 1250,00 EUR

#### VG blank flash card: Memory card 4 MB for voice guides
- **3BA27001AA AA15** 184,00 EUR

#### Add-on IDE hard disk kit
- **3BA27044AA AA15** 18,00 EUR

#### SDRAM 256 MB: 256 MB memory card for CPU7/CPU7-2
- **3BA27056AA FF11** 430,00 EUR

#### SDRAM 128 MB: 128 MB memory card for CPU5-3
- **3BA27058AA FF11** 430,00 EUR

#### MWP board: Mobile worker protection embedded gateway (to be used with notification server)
- **3BA27308AA FF11** 2350,00 EUR
1. Platform Communication Services

- COST-MU card: Multi-mode optical transmission system card (to use with INTO F)
  - 3BA53119AA AA15 600,00 EUR
- COST-MO card: Mono-mode optical transmission system card (to use with INTO F)
  - 3BA53152AA AA15 1400,00 EUR
- SDRAM 128MB for CPU6
  - 3EH75011AA FF11 430,00 EUR

### Mechanics

- M2 empty cabinet
  - 3BA00070AD AA15 2825,00 EUR
- M3 empty cabinet
  - 3BA00071AD AA15 2985,00 EUR
- MI sized empty cabinet, with 230V power supply
  - 3BA00409AA AA15 4390,00 EUR
- Second MI empty cabinet, with 230V power supply
  - 3BA00485AA AA15 4350,00 EUR
- VH patch panel INT-IP board module: module for INT-IP board
  - 3BA23244AA AA15 180,00 EUR
- MI power rack 2 slots 220V
  - 3BA26272AA AA15 1200,00 EUR
- MI European socket tripp
  - 3BA26276AA AA15 124,00 EUR
- MI UK socket tripp
  - 3BA26277AA AA15 185,00 EUR
- M2/M3 variable speed top fans
  - 3BA26340AB AA15 714,00 EUR
- M3 variable speed middle fans
  - 3BA26341AB AA15 617,00 EUR
- ACT28 mounting kit for installation in data cabinet
  - 3BA27118AA AA15 240,00 EUR
- ACT14 mounting kit for installation in data cabinet
  - 3BA27119AA AA15 240,00 EUR
- PSAL and 48V data cabinet (ACT) connecting kit
  - 3BA27121AA AA15 280,00 EUR
- Variable speed fans for data cabinet (ACT)
  - 3BA27132AA AA15 617,00 EUR
- ACT shipment kit
  - 3BA27134AA AA15 765,00 EUR
- VH patch panel 32xRJ45: Modul for analog and UA extension, analog trunk & tie line
  - 3BA53163AA AA15 122,00 EUR
- VH patch panel 16xRJ45: Modul for BRA, PRA, BPRA and DECT boards
  - 3BA53171AA AA15 153,00 EUR
- VH patch panel CPU/INT: Modul for CPU, 4635J, LIO P, LIO B, LIO E, INTO F and RT2 boards
  - 3BA53172AA AA15 180,00 EUR
- ACT14 shelf: Shelf 6U/14 slots
  - 3BA56006AA AA15 1406,00 EUR
- ACT28 shelf: Shelf 12U/28 slots
  - 3BA56007AA AA15 3031,00 EUR
- M2 packed doors front & rear
  - 3BA56063AM AA15 442,00 EUR
- M3 packed doors front & rear
  - 3BA56064AM AA15 761,00 EUR
- M2 packed lateral sides
  - 3BA56065AA AA15 547,00 EUR
- M3 packed lateral sides
  - 3BA56066AA AA15 833,00 EUR
- M2/M3 top cover packed
  - 3BA56067AA AA15 150,00 EUR
- M2/M3 fitting part. cables
  - 3BA56097AA AA15 92,00 EUR
- M3 deflector
  - 3BA56104AA AA15 75,00 EUR
- Kit of labels for OmniPCX product
  - 3BA57002 AA15 6,00 EUR
- WM1 variable speed fan kit fan kit
  - 3BA57226AA AA15 144,00 EUR

### Power Supply

- 15 AH battery elements for cabinet MI
  - 3BA26223AA FF11 329,00 EUR
## 1. Platform Communication Services

- 35 AH battery elements for cabinet MI
- Power supply for MI 220V/600W
- 230V optional second 5 slots power rack for increasing power
- Optional battery shelf for battery inside power supply cabinet
- PSC rectifier cabinet
- 48V/15 AH battery elements
- 48V/38 AH battery elements
- 48V/15 AH battery box + connection kit
- WM1 autonomy battery 1,2 AH
- 48V/24 AH battery elements
- 48V/65 AH battery elements
- 48V/65 AH battery box + connection kit
- Wall-mounted 48 V/16 A 230 V rectifier
- Wall-mounted 48 V/25 A 230 V rectifier
- Wall-mounted 48 V/40 A 230 V rectifier
- 48/24V, 38 AH battery box + connection kit
- 48V, 78 AH battery box + connection kit
- 48V, 78 AH battery elements

### Additional equipments & Remote maintenance

- RMA 10/100B-T (remote maintenance access) board + PWS cable
- RMAB board: Remote Maintenance Access Board
- Converter CM9 without box: Converter 48V/220V for VH remote maintenance modem
- CBRMA 10/100B-T connecting box: CPU6 connecting box for remote maintenance access(V24 for maintenance & external application)
- Convert CM9 with box: Converter 48V/220V for WM1, M2 and M3 remote maintenance modem
- Asynchronous telemaintenance modem for VH, WM1, M2 and M3 cabinets

### System & MDF cables

- Bayonet/screw BNC adaptor
- MDF TY5 9pts DIN/BNC cable adaptor for 75 ohms
- RMAB/CRBMA 5 m system cable, RMAB board to CBRMA connecting box
- Crossed 2 pairs cable, length 1.8 m
- 15 m cable from CBRMA to MDF
- 25 m cable from CBRMA to MDF
- 55 m cable from CBRMA to MDF
- CPU/CRBMA 10 m system cable
- CPU backup 1 m system cable
- 10 m cable from CBRMA to MDF

1.4 OmniPCX Software

Business software options

Alcatel-Lucent OmniPCX Enterprise Software

Communication Server - Software packs: Essential, Privilege

Communication Server: Software licenses packs for medium market and large market segments

To promote the powerful services of the communication server, a suite of price effective user profiles licences is proposed:

- The **ESSENTIAL** packs for essential services as ARS, Dial by name, Accounting ...
- The **PREMIUM** packs for essential services as ARS, Dial by name, Accounting ...
- The **PRIVILEGE** packs to offer at a best price the powerful embedded voice mail in addition to essential services.

- Essential pack 50 includes ARS, accounting, configuration licenses for e-CS 50 engine and embedded voice guides license
  - 3BA00570AA BA15 365,00 EUR

- Essential pack 80 includes ARS, accounting, configuration licenses for e-CS 80 engine and embedded voice guides license
  - 3BA00570AB BA15 565,00 EUR

- Essential pack 150 includes ARS, accounting, configuration licenses for e-CS 150 engine and embedded voice guides license
  - 3BA00570AC BA15 865,00 EUR

- Essential pack 350 includes ARS, accounting, configuration licenses for e-CS 350 engine and embedded voice guides license
  - 3BA00570AD BA15 1110,00 EUR

- Privilege pack 50 includes A4645 engine license, A4645 users for e-CS 50 engine, ARS, accounting, configuration licenses for e-CS 50 engine and embedded voice guides license
  - 3BA00571AA BA15 1360,00 EUR

- Privilege pack 80 includes A4645 engine license, A4645 users for e-CS 80 engine, ARS, accounting, configuration licenses for e-CS 80 engine and embedded voice guides license
  - 3BA00571AB BA15 1665,00 EUR

- Privilege pack 150 includes A4645 engine license, A4645 users for e-CS 150 engine, ARS, accounting, configuration licenses for e-CS 150 engine and embedded voice guides license
  - 3BA00571AC BA15 3465,00 EUR

- Privilege pack 350 includes A4645 engine license, A4645 users for e-CS 350 engine, ARS, accounting, configuration licenses for e-CS 350 engine and embedded voice guides license
  - 3BA00571AD BA15 4750,00 EUR

**Network software options**

- Node pack 50 includes corporate networking license for e-CS 50 engine and 4x H323 network link license
  - 3BA00535AA BA15 1120,00 EUR

- Node pack 80 includes corporate networking license for e-CS 80 engine and 4x H323 network link license
  - 3BA00535AB BA15 1200,00 EUR
1. Platform Communication Services

- Node pack 50 includes corporate networking license for e-CS 50 engine, 4x H323 network link license and A4645 users for e-CS 50 engine
  - 3BA00536AA BA15 2080,00 EUR

- Node pack 80 includes corporate networking license for e-CS 80 engine, 4x H323 network link license and A4645 users for e-CS 80 engine
  - 3BA00536AB BA15 2160,00 EUR

- Node pack 50 includes corporate networking license for e-CS 50 engine, 4x H323 network link license and A4635 users for e-CS 50 engine
  - 3BA00537AA BA15 1920,00 EUR

- Node pack 80 includes corporate networking license for e-CS 80 engine, 4x H323 network link license and A4635 users for e-CS 80 engine
  - 3BA00537AB BA15 2000,00 EUR

User Profiles software packs

- User Profile: Office Worker Essential for IP Terminal
  - 3BA00638AA CC40 0,07 EUR

1. Platform Communication Services

Communication Server engine

Communication Server: Software licenses packs

A large set of software licences is proposed to enrich the standard communication server level of services depending on the system user capacity linking to the engine (e-CS) size:
- The software release license and its upgrade linking to the system engine size or topology
- The redundancy service thanks to the duplication software license and,
- Licenses to upgrade the size of the communication server engine.

Communication Server - Dynamic Software packs

Communication Server: Software licenses packs for medium market

To promote the powerful services of the communication server, a suite of price effective software licenses packs is proposed targeting primarily medium sized businesses:
- The Dynamic starter pack to push mobility DECT services
- The NODE packs to offer networking services with/wo centralized/remote voice mail.
- The HOTEL packs to offer essential Hotel services for medium sized Hotels.

Communication Server: Desktop or Mobility or IP services licenses

A large set of software licences is proposed to enrich the standard communication server level of services:
- Licenses per client of the feature-rich "Reflexes" telephony or the single line features,
- Licenses per client of the traditional DECT mobility or the ubiquity or the extended mobility,
- Licenses per server or client of the VoIP communication services and the SIP services.

Business applications

Business applications: Free desktop environment

Free Desktop environment will address various customer needs as Virtual Office, campus roamer needs or disaster recovery plan implementation.
On IPTouch, user will only have to access to the service thanks to the convenient GUI of the IPTouch.
For other type of handset, access to service will be done through a web based service available as any web application of the company intranet.

- Software license for the OmniPCX Enterprise software engine with the value 50 users
  3BA09976AA CC40 750,00 EUR
- Software license for the OmniPCX Enterprise software engine with the value 80 users
  3BA09977AA CC40 1000,00 EUR

This document does not constitute a contract. Alcatel-Lucent reserves the right to modify characteristics without prior notice. All rights reserved. All trademarks are the property of their respective companies.
1. Platform Communication Services

- Software license for the OmniPCX Enterprise software engine with the value 150 users
  3BA09978AA CC40 1500,00 EUR

- Software license for the OmniPCX Enterprise software engine with the value 350 users
  3BA09979AA CC40 2000,00 EUR

- Software license for the OmniPCX Enterprise software engine with the value 500 users
  3BA09980AA CC40 2500,00 EUR

- Software license upgrade for the OmniPCX Enterprise software engine between the value 51 and 80 users
  3BA09981AA CC40 600,00 EUR

- Software license upgrade for the OmniPCX Enterprise software engine between the value 81 to 150 users
  3BA09982AA CC40 1600,00 EUR

- Software license upgrade for the OmniPCX Enterprise software engine between the value 151 and 350 users
  3BA09983AA CC40 1600,00 EUR

- Software license upgrade for the OmniPCX Enterprise software engine between the value 351 and 500 users
  3BA09984AA CC40 1600,00 EUR

- Software license upgrade to increase the size of the OmniPCX Enterprise software engine with additional 500 users
  3BA09985AA CC40 1600,00 EUR

- Software license for Physical users up to 50 users
  3BA09976AB CC40 0,07 EUR

- Software license for Physical users up to 80 usagers
  3BA09977AB CC40 0,07 EUR

- Software license for Physical users up to 150 users
  3BA09978AB CC40 0,07 EUR

- Software license for Physical users up to 350 users
  3BA09979AB CC40 0,07 EUR

- Software license for Physical users up to 500 users
  3BA09980AB CC40 0,07 EUR

- Physical users upgrade software license from 51 to 80 users
  3BA09981AB CC40 0,07 EUR

- Physical users upgrade software license from 81 to 150 users

- Physical users upgrade software license from 151 to 350 users
  3BA09983AB CC40 0,07 EUR

- Physical users upgrade software license from 351 to 500 users
  3BA09984AB CC40 0,07 EUR

- Physical users upgrade software license increased with additional 500 users in relation with the OmniPCX Enterprise software engine size
  3BA09985AB CC40 0,07 EUR

- e-Communication Server (e-CS) redundancy software license
  3BA09407AA CC40 1000,00 EUR

- Software License for “Passive Communication Server” (PCS)
  3BA09046JA CC40 2000,00 EUR

Desktop Communication Services

Alcatel-Lucent OmniPCX Enterprise applications

Business applications: FreeDesktop environment

FreeDesktop environment will address various customer needs as Virtual Office, campus roamer needs or disaster recovery plan implementation.

On IPTouch, user will only have to access to the service thanks to the convenient GUI of the IPTouch. For other type of handset, access to service will be done through a web based service available as any web application of the company intranet.

- Software license for the Alcatel-Lucent Smart Call which simplifies how users initiate calls, being able to make a call directly from your PC screen by simply highlighting the telephone number
  3BA09048JA CC40 1948,00 EUR

- License for usage of the IME (INPUT METHOD ENGINE) -1 USER
  3BA09077JA CC40 2,00 EUR

1. Platform Communication Services

Voice & Media services

Communication Server - Conferencing & Call handling services licenses

Communication Server: Conferencing or Call handling or Network

A large set of software licences is proposed to enrich the standard communication server level of services:
- Licenses for the conferencing features: Mastered or meet-me conferences
- Licenses for the call handling features: DISA, Automatic Route Selection
- Licenses for the networking features: ABC, ABC VPN or ISVPN networking and Fax server.

Communication Server - Voice guidance and Attendant services licenses

Communication Server: Attendant services or Hotel services

A large set of software licences is proposed to enrich the standard communication server level of services:
- Licenses for the voice guidance: Voice guide, Multilanguage, Voice guide recording
- Licenses for the Attendant features: Automated Attendant or Attendant consoles position
- Licenses for the Hotel facilities: Hotel features, AHL (Alcatel Hotel Link) link.

Communication Server - Voice & media services licenses

Communication Server: Specific voice & media services

A large set of software licences is proposed to enrich the standard communication server level of services:
- Licenses per engine size for the Multi-companies services per engine size,
- Licenses per engine size for the Priorities services,
- Licenses per engine size for the Call restriction services.

- Master conference service software license for the OmniPCX Enterprise software engine with the value 80 users
  3BA09482AA BA15 500,00 EUR
- Master conference service software license for the OmniPCX Enterprise software engine with the value 150 users
  3BA09483AA BA15 700,00 EUR
- Master conference service software license for the OmniPCX Enterprise software engine with the value 500 users
  3BA09484AA BA15 2800,00 EUR
- Master conference service upgrade software license for the OmniPCX Enterprise software engine between the value 81 and 150 users
  3BA09486AA BA15 200,00 EUR

Management application: Alcatel-Lucent OmniVista 4760

A powerful management tool for a simplified management:

The Alcatel-Lucent OmniVista 4760 management applications provides the following services:
- the Configuration, the Accounting, the system alarms & performances,
- the company Directory and the enterprise Voice network topology management...

Management application : Alcatel-Lucent 4760 MCS Edition

4760 MCS Edition enables the service provider's Network Operation Center to configure the OmniPCX family, perform Moves, Adds and Changes, provision services, generate accounting and performance reports, and more. In addition, service providers will be able to activate remotely services thanks to a set of open interfaces.

3.1 4760

5. User applications

5.1 OmniTouch Unified Communication

**Alcatel-Lucent OmniTouch Unified Communications**

OmniTouch Unified Communications offers nowadays real-time communication services for all users: telephony, messaging, one number, presence, instant messaging and peer to peer video.

OmniTouch Unified Communications brings My Instant Communicator, an innovative user experience, with a consistent User Interface whatever the device is, and adaptive to your needs.

**Alcatel-Lucent OmniTouch My Teamwork**

*My Teamwork* is a carrier grade audio conferencing bridge that includes full featured web collaboration.

It supports all media types (audio, Web, video and Instant Messaging) and includes full conferencing capabilities including both scheduled and reservationless conferencing.

**Alcatel-Lucent OmniTouch Automated Message Delivery System**

Alcatel-Lucent Automated Message Delivery System (AMDS) is a full-featured, flexible, and highly customizable voice messaging software application. With just a phone and a browser, you can record, manage, and automatically deliver voice messages to thousands of constituents (on-demand) in a timely, cost-efficient manner.

**Alcatel-Lucent OmniTouch Fax Server**

OmniTouch Fax server composes, sends and receives fax directly from your e-mail client. It is a boardless T.38 Fax over IP full software solution.

6. Sets & On-site mobility equipments

6.1 Desktop sets

**Desktop terminals : A range of professional awarded IP and TDM phones**

In the IP environment, the IP Touch phones are full-featured with integrated IP connectivity and telephony bringing the user the converged power of data and voice over IP. These terminals offer high resolution screens, the very best in sound quality and the capability to interface any business application. These IP phones replace the Alcatel-Lucent e-reflexes range.

**Desktop terminals enablers & accessories**

A complete range of enablers & accessories to enhance terminals features

- For Reflexes or e-Reflexes or Alcatel-Lucent 8 & 9 series, enablers & accessories are provided:
  - IP enablers: Terminals, V24 interfaces
  - Headsets for operator position or office use
  - Comfort handset with softgrip, Wall-mounting kits, labels, Cords, Power supply ...

#### Audio Board for PSTN link connections to PBX 192/240 Ports
- Code: 3BA27313AA
- Price: 22400.00 EUR

#### T2 board in PC format for the OmniVista 4760 server enabling high traffic connexions
- Code: 3BA27671AA
- Price: 5624.00 EUR

#### Analog voice board 8 ports
- Code: 3BA57264AA
- Price: 2570.00 EUR

#### Digital Voice Board 60 Ports
- Code: 3BA57266AB
- Price: 6920.00 EUR
7. Complementary equipments

- Digital Voice Board 60 Ports
  - 3BA57266AC FF11 6920,00 EUR
- Backup Power Supply Unit (Hot plug redundancy alim.) for Server Pack 3
  - 3BA57288AA FF13 440,00 EUR
- CCivr H100 cable for voice board
  - 3BA58146AA FF11 89,00 EUR

Software options for platforms

- Remote Control Manager CD-ROM, Software for Windows Operating Systems
  - 3BA57466AA FF13 155,00 EUR
- Remote Control Client CD-ROM, Agent Software for Windows Operating Systems
  - 3BA57482AA FF13 40,00 EUR
- Linux Redhat R4.0 Enterprise Server CD-ROM
  - 3BH11705AA FF13 400,00 EUR
- CD-ROM containing the Red Hat Cluster Suite package for the Red Hat Enterprise Linux ES operating system
  - 3BH11729AA FF13 600,00 EUR

Printers & Peripherals

- Uninterrupted power supply 1500 VA up to 6 servers
  - 3BA57262AA FF13 890,00 EUR
- PC Switch Box 1/8 allows connection of 8 PCs on the same server
  - 3BA57287AA FF13 2728,00 EUR

7.3 Tools

- OmniAccess 4308SX with adaptive RF management. Provides 8 auto-sensing 10/100 interfaces with Power over Ethernet (PoE) and one 1000BaseSX uplink. Supports up to 16 OmniAccess APxx Access Points. Operates directly connected to the Access Points or ...

8. Migration & Maintenance

Alcatel-Lucent OmniPCX Enterprise

Migration items

migration packs

Suitable for Stand-alone and networked 4400 systems

For Alcatel-Lucent OmniPCX 4400 systems

• Accessible only through ACTIS
• No direct order through e-Commerce

Various packages are available for migration from OmniPCX 4400 toward OmniPCX Enterprise R7.0

System packages including CPU and migration licenses (see related programs: Enrich and Crescendo)
- Migration packs from 4400 to Enterprise (CPUx),
- Migration packs from 4400 to Enterprise (with Appliance Server),
- Contact Center application: Alcatel-Lucent OmniTouch,
- Unified Communication migration pack: OmniTouch Unified Communication Suite ...

8.1 OmniPCX Migration & Upgrade

OmniPCX Migration & Upgrade

- Major migration pack for stand-alone 4400 with CPU6: CPU6 with 128MB SDRAM, hard disk and major upgrade migration software license
  3BA03078AA AA15  6486,00 EUR
- Major migration pack for stand-alone 4400 with two CPU6: 2 x CPU6 with 128MB SDRAM, 2 x hard disks and major upgrade migration license
  3BA03079AA AA15  9972,00 EUR
- Major migration pack for stand-alone 4400 without Appliance Servers: INT-IP2 and major upgrade migration software license
  3BA03102AA AA15  5850,00 EUR
- Major migration pack for stand-alone 4400 without Appliance Servers: 2 x INT-IP2 and major upgrade migration software license
  3BA03103AA AA15  8700,00 EUR
- Major migration pack for stand-alone 4400 with IBM Appliance Server: IBM Appliance Server with INT-IP2 and major upgrade migration software license
  3BA03182AB AA40  8400,00 EUR
- Major migration pack for stand-alone 4400 with 2 IBM Appliance Server: two IBM Appliance Server with two INT-IP2 and major upgrade migration software license
  3BA03183AB AA40  14800,00 EUR
- Major migration pack for stand-alone 4400 with CPU7-2: CPU7-2 with 256MB SDRAM, hard disk and major upgrade migration software license
  3BA03188AA AA15  7375,00 EUR
- Major migration pack for stand-alone 4400 with two CPU7-2: 2 x CPU7-2 with 256MB SDRAM, hard disk and major upgrade migration software license
  3BA03189AA AA15  11750,00 EUR
- Major migration pack for stand-alone 4400 with HP Appliance Server: HP Appliance Server with INT-IP2 and major upgrade migration software license
  3BA03194AB AA40  8600,00 EUR
- Major migration pack for stand-alone 4400 with 2 HP Appliance Server: two HP Appliance Server with two INT-IP2 and major upgrade migration software license
  3BA03195AB AA40  15200,00 EUR
### 8. Migration & Maintenance

- Migration of Alcatel-Lucent OmniPCX Enterprise major software upgrade for a software engine in a stand-alone configuration
  - 3BA09723AA BA15 3000,00 EUR

- Major migration pack for networked 4400 with CPU6: CPU6 with 128MB SDRAM, hard disk and major upgrade migration software license
  - 3BA03086AA AA15 5586,00 EUR

- Major migration pack for networked 4400 with two CPU6: 2 x CPU6 with 128MB SDRAM, 2 x hard disks and major upgrade migration software license
  - 3BA03087AA AA15 9072,00 EUR

- Major migration pack for networked 4400 without Appliance Server: INT-IP2 and major upgrade migration software license
  - 3BA03106AA AA15 4950,00 EUR

- Major migration pack for networked 4400 without Appliance Servers: 2 x INT-IP2 and major upgrade migration software license
  - 3BA03107AA AA15 7800,00 EUR

- Major migration pack for networked 4400 with IBM Appliance Server: IBM Appliance Server with INT-IP2 and major upgrade migration software license
  - 3BA03184AB AA40 7800,00 EUR

- Major migration pack for networked 4400 with 2 IBM Appliance Server: two IBM Appliance Server with two INT-IP2 and major upgrade migration software license
  - 3BA03185AB AA40 14300,00 EUR

- Major migration pack for networked 4400 with CPU7-2: CPU7-2 with 256MB SDRAM, hard disk and major upgrade migration software license
  - 3BA03190AA AA15 6475,00 EUR

- Major migration pack for networked 4400 with two CPU7-2: 2 x CPU7-2 with 256MB SDRAM, hard disk and major upgrade migration software license
  - 3BA03191AA AA15 10850,00 EUR

- Major migration pack for networked 4400 with HP Appliance Server: HP Appliance Server with INT-IP2 and major upgrade migration software license
  - 3BA03196AB AA40 8000,00 EUR

- Major migration pack for networked 4400 with 2 HP Appliance Server: two HP Appliance Server with two INT-IP2 and major upgrade migration software license
  - 3BA03197AB AA40 14700,00 EUR

- Migration of Alcatel-Lucent OmniPCX Enterprise major software upgrade for a software engine in a networked configuration
  - 3BA09753AA BA15 2100,00 EUR

- Migration pack for DECT 8
  - 3BA00472AA AA15 2225,00 EUR

14.1 OS7000 Maintenance Plan

**OS6850 Chassis and PS**

**OmniSwitch 6850 chassis**

OmniSwitch 6850 is an advanced L3 LAN Gigabit switch family for enterprise edge and LAN enterprise core in small campus.

OS6850 is available in several versions providing 24 or 48 ports 10/100/1000, 10/100/1000 with POE standard (P) and high-power (PxxH), Fiber SFP (U) and 10Gig uplinks (X) when necessary.

OS6850L models proposes 10/100 connectivity and are software upgradeable to GigE.

All members of the OS6850 series employ a reduced depth main chassis.

Power supply could be directly plugged in the rear of the chassis or remotely mounted in the rack.

Chassis Bundles ship with two rack mounts for the power shelf, and one chassis connection cable for remote mounting of the power supply.

OS6850 supports power supply redundancy.

14.2 OmniStack LS 6200

OmniData

OmniStack 6200
OmniStack LS 6200 provides the performance and advanced services. The OmniStack LS 6200 is a great alternative when L3 routing or Gigabit speed on every ports is not needed.

OmniStack LS 6200 provides for each models:
- 12, 24 or 48 10/100 RJ45 ports
- 2 stacking 10/100/1000 RJ45 ports
- 2 uplinks (copper RJ45 or fiber SFP)

OmniStack LS 6200 is stackable and can support up to 8 stacks. The OmniStack LS 6200 is also available in PoE (Power over Ethernet) version.

OmniStack is easy to manage and supports VLAN, provides high availability and Quality of service.

OmniStack is secure with RADIUS and TACACS support. It also provides 802.1X authentication.

Optionally 100 BaseFX et Gigabit Optical Ethernet Transceivers (SFP MSA) can be used to connect the switch to a corporate network or to the backbone.

14.3 OmniAccess WLAN

**OmniAccess Wireless infrastructure 4302 - 4304 - 4308 - 4324**

OmniAccess WLAN OAW-4302, 4308, and 4324 are part of the OmniAccess WiFi enterprise solution. They address the requirements of the most demanding medium and large enterprise, by offering an advanced set of features to enable simple, resilient, secure mobile networking and business-grade voice over WiFi.

The OAW4302, 4308, and 4324 excel in mixed Voice and Data wireless deployments as well as pure Data deployments where security is required. The advanced Wi-Fi solution provides build-in 802.11 intrusion protection, secure segmentation between users including voice and data traffic as well as enhanced VoWLAN QoS, seamless handover, and extended VoWLAN terminal battery life. Centralized management and dynamic RF management ensure a simplified deployment and operation of the Wi-Fi infrastructure.

**OmniAccess Wireless AP**

**OmniAccess Wireless Access Points**

The OmniAccess AP60 is a single radio, multi-band (802.11 a/b/g) thin access point with dual external antennas.

The OmniAccess AP61 is is a single radio, multi-band (802.11 a/b/g) thin access point with integral tri-band antennas.

The OmniAccess AP65 is Alcatel-Lucent's smallest, dual-radio thin architecture access point which provides concurrent operation of 802.11a and 802.11b/g services.

**OmniAccess Wireless Access Points Accessories**

For each Wifi Access Point accessories are available:

- Wall & Ceiling mounting kit, cables
- Omni-Directional, Bi-directional, wide-angle antennas for Access Point AP60 and AP61
- Local power supply when the AP are not powered with PoE, mounting kit, cables

- 2.4Ghz-5Ghz / 4.5dBi Tri-Band High Gain Omni-Directional Detachable Antenna. Indoor Use Only. Neartson Part T614AH-2.4-5.5-X.S.  
  AP-ANT-1 YAYAZ 25,00 EUR

#### Transceivers

- **100Base-FX SFP transceiver with an LC type interface.** This transceiver is designed for use over multimode fiber optic cable.
  - **SFP-100-LC-MM** YAYAS 121,00 EUR

- **100Base-FX SFP transceiver with an LC type interface.** This transceiver is designed for use over single mode fiber optic cable up to 15KM.
  - **SFP-100-LC-SM15** YAYAS 274,00 EUR

- **Extended 1000Base-SX Gigabit Ethernet optical transceiver (SFP MSA).** Supports multimode fiber over 850nm wavelength (nominal) with an LC connector. Reach of up to 2 km on 62.5/125 µm MMF and 50/125 µm MMF. Requires SFP-GIG-EXTND or GBC-GIG-EXTND...
14. OmniData

- **1000Base-LX Gigabit Ethernet optical transceiver (SFP MSA)**. Supports single mode fiber over 1310nm wavelength (nominal) with an LC connector. Typical reach of 10 Km on 9/125 µm SMF. [Formerly known as MINIGBIC-LX]

- **1000Base-SX Gigabit Ethernet optical transceiver (SFP MSA)**. Supports multimode fiber over 850nm wavelength (nominal) with an LC connector. Typical reach of 300m on 62.5/125 µm MMF or 550m on 50/125 µm MMF. [Formerly known as MINIGBIC-SX]

- **1000Base-T Gigabit Ethernet Transceiver (SFP MSA)** - Supports category 5, 5E, and 6 copper cabling up to 100m. SFP only works in 1000 Mbit/s speed and full-duplex mode

- **10 Gigabit Ethernet optical transceiver (XFP MSA)**. Supports single mode fiber over 1310nm wavelength (nominal) with an LC connector. Typical reach of 10 Km on 9/125 µm SMF. [Formerly known as 10G-XFP-LR]

- **10 Gigabit Ethernet optical transceiver (XFP MSA)**. Supports multimode fiber over 850nm wavelength (nominal) with an LC connector. Typical reach of 300m on 50/125 µm MMF. [Formerly known as 10G-XFP-SR]

14.5 Service and Support

**Worldwide Services**

- Remote installation mentoring service and support for OmniAccess Wireless

- Remote Installation mentoring service for Alcatel-Lucent Business Partner on O S6200 stacks. This service provides remote Alcatel-Lucent Professional Services support to answer technical questions and/or participate in installation or troubleshooting efforts...
