- Parallelogram 3 11/16" x 4 15/16"
- Holly - Small
- Bird Trio
- Quilters Leaves
- Rectangle 3 1/2" x 6 1/2"
- Alphabet

Here's how to make the best use of your rental time:

- Let us know what you are making so we can have the dies ready for you.
- Press your fabric to remove the wrinkles (not wool), especially the factory fold.
- If using a pattern, please bring the pattern with you.

TIPS

- Take a little time to get acquainted with the Studio Cutter.
- You may want to purchase Fusi-Bond Lite from us if you are preparing fusible applique.
- Test cut one shape before cutting many shapes to ensure fabric orientation is correct and always test with Scrap Fabric!
- Check the orientation of the lengthwise grain before each cut. Align the lengthwise grain with a straight line of the die blade. (I fold the edge back to line up.)
- Precut strips of fabric approximately 1/2" wider than the shape you want to cut.
- SAVE FABRIC -When layering your fabric on the die, only place it right over the shape you wish to cut.
- For super fast perfect half-square triangles, layer fabric on die right sides together, and then cut. Pick up one pair from the pile and sew!
