

## Commercial Four Door Worktop / Under Bench Fridge 700mm Depth

Our 4-door commercial worktop refrigerator comes standard with castor wheels for easy manoeuvrability. It is fitted with self-closing doors so you can let them just swing shut, saving you time and improving efficiency. This smart bench / under-bench fridge is designed for busy kitchens in pubs, restaurants, and bars. 4 doors, each with two adjustable wire shelves, allow this fridge to utilise its full 553-litre capacity. This model can store a multitude of items, with internal LED lighting providing easy visibility. The robust stainless-steel body is capable of withstanding an ambient temperature of up to 43°C. It is also fitted with fan-forced, ventilated cooling and electronic temperature controls.

The X-series has been designed with dual fans located at the front and side of the unit. This design frees up the rear ventilation space, allowing you to position these models flush against the back wall. All you are required for ventilation is to provide 150mm at the side and the front clear from obstructions.

R290 Refrigerant is non-toxic, natural, and free of ozone-depleting properties. R290 is one of the most climate-friendly and cost-effective refrigerants available. Fridges and Freezers using this refrigerant are more efficient and can reduce your overall energy costs by up to 28%.

When you buy from AG Equipment, you know you are getting a twenty-four-month parts and labour warranty from a trusted Australian supplier.

### Carel iJF Controller

The new iJF controller is by CAREL, with more than thirty years of experience in the refrigeration controller market. Customisation options, aesthetics and functionalities have been considered when commissioning the controller. Its frameless flat design and distinctive appearance blend perfectly into any fridge or freezer appliance.

- Provides Logs
- Fault alarm warnings
- Mobile connectivity with Controlla Application through Bluetooth
