

Three Door Commercial Worktop / Under Bench Fridge 800mm Depth

This three-door commercial bench refrigerator has adjustable shelves plus a unique centre-shelf connector between so you can utilise the full 580L storage capacity. Each of the three doors has two shelves allowing storage of up to six patisseries (600mm x 400mm) trays or pans.

Designed for restaurants, cafes, pubs and other busy kitchens, this unit is constructed from heavy-duty stainless steel and has self-closing doors to ensure efficient temperature regulation. A Cubigel compressor and fan-forced ventilated cooling are installed for efficient performance in ambient temperatures up to 43°C, and the unit is complemented by a Carel latest generation iJF digital temperature controller with NFC and Bluetooth communication capabilities.

The X-series has been redesigned with dual fans, located at the front and side of the unit. This fan design frees the rear ventilation space allowing you to position these models to flush against the back wall. All you are required for ventilation is to provide 150mm at the compressor side and the front clear from obstructions.

R290 Refrigerant is non-toxic, natural, and free of ozone-depleting properties. R290 is one of the most climate-friendly and cost-effective refrigerants available. Fridges and Freezers using this refrigerant are more efficient and can reduce your overall energy costs by up to 28%.

When you buy from AG Equipment, you know you are getting a twenty-four-month parts and labour warranty from a trusted Australian supplier.

Carel iJF Controller

The new iJF controller is by CAREL with more than thirty years of experience in the refrigeration controller market. Customisation options, aesthetics and functionalities have been considered when commissioning the controller. Its frameless flat design and distinctive appearance blend perfectly into any fridge or freezer appliance.

- Provides Logs
- Fault alarm warnings
- Mobile connectivity with Controlla Application through BlueTooth
