Pizza Oven

Instruction manual

Model:

CJ373-A

Safety Instructions

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components on this product.
- Consult Local and National Standards to comply with the following:
  - Health and Safety at Work Legislation
  - Fire Precautions
  - IEE Wiring Regulations
  - Building Regulations
- DO NOT immerse the appliance in water.
- Do not clean with jet/pressure washers.
- **Caution: Hot Surface! The temperature of accessible surfaces may be high when the appliance is operating. Always wear oven mittens when removing food.**

- The appliance are not intended to be operated by means of an external timer or separate remote-control system.
- DO NOT obstruct or cover the appliance in any way when in use.
- DO NOT leave the appliance unattended during operation.
- The appliance should not come into contact or be covered with easily flammable materials, like curtains, textiles, walls and the like. Always ensure sufficient safety distance to flammable materials.
- Always switch off the appliance, disconnect from the power supply and allow to cool when not in use, before cleaning and carrying out maintenance.

CJ373-A_A5_v1_20231213.indb 2 2023/12/13 14:50

- Not suitable for outdoor use.
- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by an Apuro agent or a recommended qualified technician in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Apuro recommend that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.

Introduction

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your Apuro product.

Pack Contents

The following is included:

- Apuro Pizza Oven
- Instruction manual

Apuro prides itself on quality and service, ensuring that at the time of unpacking the contents are supplied fully functional and free of damage.

Should you find any damage as a result of transit, please contact your Apuro dealer immediately.

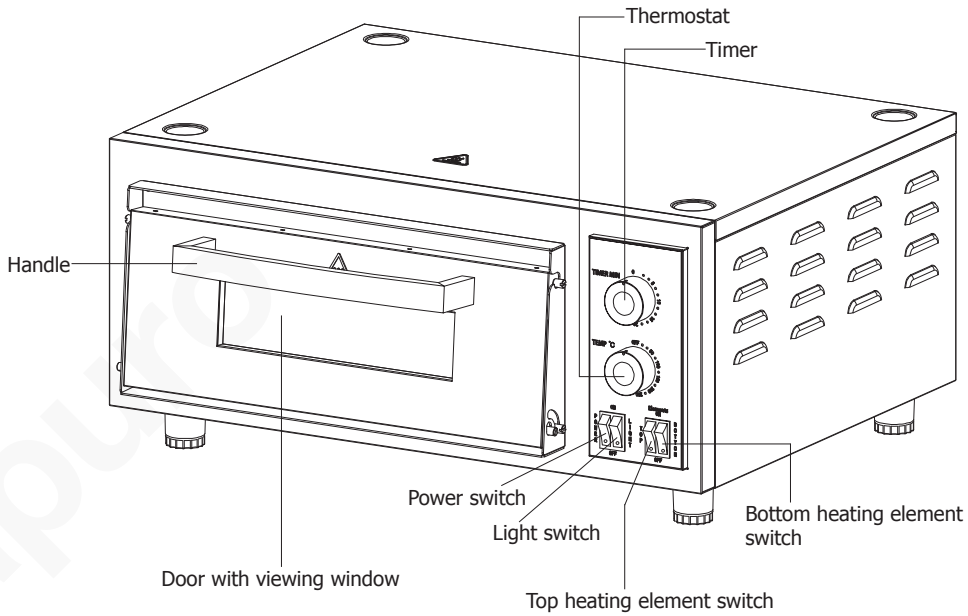

CJ373-A_A5_v1_20231213.indb 3 2023/12/13 14:50

Installation

1. Remove the appliance from the packaging. Make sure that all protective plastic film and coatings are thoroughly removed from all surfaces.
2. Maintain a distance of 20cm (7 inches) between the unit and walls or other objects for ventilation.

Before first time use:
- **Clean the interior and the firestone with soapy water. Let dry well.**
- **Let the appliance run at the highest temperature (400°C) for 5 minutes to burn off any manufacturing residues.**

Operation

1. Put the food on the firestone and close the door.

Note: This oven is intended for fast and crispy cooking of pizza, quiche, lasagne, pies, and particularly useful to heat up pizza slices or other delicate products. Do not use for other purposes.

2. Connect the appliance to the mains power supply, then turn on the power switch ("ON" position).
3. Set the thermostat to the desired temperature.
4. Set the timer to the desired cooking time. The appliance begins to heat up straight away. (Note: The timer can be adjusted any time during operation.)
5. Turn on the light switch.
6. Turn on the top and/or bottom heating elements using the switches.

CJ373-A_A5_v1_20231213.indb 4 2023/12/13 14:50

Note: During use, the power indicator light keeps on and off constantly, indicating the set temperature is being kept.
The timer is just a reminder. Even after it returns to "0", the appliance is still running.

7. When the cooking time expires, the timer returns to "0" automatically.
8. **After use:** Set the thermostat to "OFF" and power switch to "OFF" consecutively. Then disconnect from the power supply.

Cleaning, Care & Maintenance

- Switch off and disconnect the appliance from the power supply. Allow to cool down before cleaning.
- Clean the interior of the appliance as often as possible.
- Do not use abrasive cleaning agents. These can leave harmful residues.
- For stains on the interior walls, wipe with a cloth damped with some mild soapy solution. Ensure no moisture enters the inside of the cabinet.
- Always wipe dry after cleaning.

Cleaning the firestone

- Periodically remove the firestone from the oven for cleaning.
- Clean using warm, soapy water. Rinse thoroughly and dry well.
- Re-locate the firestone in place.

Caution: Only clean the firestone after cooling down, or it may break.
Never use scouring pads or steel wool to avoid scratching the surface.

Troubleshooting

A qualified technician must carry out repairs if required.

Fault	Probable Cause	Solution
The appliance is not working	The unit is not switched on	Check the unit is plugged in correctly and switched on
	Plug or lead is damaged	Replace plug or lead
	Mains power supply fault	Check mains power supply
	Overheating protection activated	Consult a qualified technician
Appliance heats up but indicator light does not come on	Bulb has expired	Consult a qualified technician
Indicator light comes on but appliance does not heat up	Faulty thermostat	Consult a qualified technician
	Faulty heating elements	Consult a qualified technician
	Thermostat set incorrectly	Check thermostat
Appliance slow to heat up or cannot reach set temperature	Cooking surface not clean	Clean cooking surface
	Only bottom heating elements are turned on	Ensure to turn on both top and bottom heating elements

Technical Specifications

Note: Due to our continuing program of research and development, the specifications herein may be subject to change without notice.

Model	Voltage	Power	Firestone size (mm)	Dimensions h x w x d mm	Weight
CJ373-A	220-240V~ 50/60Hz	2400W	415 x 415	300 x 630 x 565	22.6kg

Electrical Wiring

The plug is to be connected to a suitable mains socket.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

Apuro parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

Apuro products have been approved to carry the following symbol:
