

5L Bowl Cutter + Vegetable Prep System

with four stainless-steel cutting discs

2-IN-1 PREP SYSTEM

5 L

STAINLESS-STEEL BOWL

735 W

COMMERCIAL MOTOR

1500

RPM + PULSE CONTROL

PRODUCT OVERVIEW

A versatile commercial preparation package combining the Apuro DM070-A bowl cutter with the DN630-A vegetable preparation attachment. The system supports batch chopping and mixing in its 5-litre bowl, then converts for repeat slicing and shredding using the supplied feed chutes, spring-loaded pusher and four cutting discs.

KEY FEATURES

- Commercial-grade motor supports busy kitchen preparation.
- Pulse function gives added control over processing texture.
- Safety interlocks prevent operation when components are unsecured.
- Large and small feed chutes accommodate varied produce.
- Spring-loaded hinged pusher supports repeat batch preparation.
- Removable bowl, blades and attachment parts simplify cleaning.

INSTALLATION & SAFETY

Benchtop installation. Allow at least 15mm clearance for ventilation. Use only when all interlocks and guards are secured. Disconnect power before changing discs, cleaning or maintenance.
