# Breader/Blender/Sifter

AyrKing offers a manual breadmaking workstation with integrated automatic Blender/Sifter machine. Rotary brush sifter operates without detrimental vibration or agitation. Spirally configured nylon bristles form an auger to eject unwanted dough balls to a waste container. Ingredients are fully blended as brush tumbles breadmaking media before it exits through sifter screen. Unique process prevents dough ball grinding, eliminates usual sifting noise, & blends ingredients as it ejects waste.

## ADVANTAGES

Sift and blend 25 lbs (11 kg) of breadmaking in 60 seconds!

Rotary auger brush blends, sifts, and ejects dough balls simultaneously

Blending brush action prevents ingredient segregation, unlike vibrating or agitating systems

Quiet, vibration-free operation creates results, not disturbances

Sixty second timed cycle frees labor and saves energy

Only three internal parts allows quick and easy cleaning

Direct drive, steel geared motor & solid stainless steel fabrication provide lasting performance
