

Brema's VM range of modular ice cube heads produces pyramid-trunk shaped ice cubes weighing 7g which automatically drop into a separate Brema storage bin.

The Brema VM350A is a modular ice cube machine that produces 140kg of ice per 24 hours and is designed to fit on top of a range of Brema storage bins with differing capacities from 200kg to 240kg.

The 'fast ice' created by Brema's VM modular heads is ideal for hotels, fast food outlets, bars and clubs.
