

FLEXIBILITY

Three centimetres. In many contexts it's not even visible. Nevertheless, that is the unique margin within which Tonon has managed to create its tolerance.

In other words: Tonon can be adapted to any space to within three centimetres – whatever the dimensions of the room.

So choosing Tonon means saying goodbye to unproductive areas and welcome to optimized warehousing, where as much of the space as possible makes a positive contribution to the bottom line.

OUR PROMISE TO YOU:

- Solutions matched 100 percent to the customer's requirements, based on 3D designs
- All known certificates and approvals
- Long life service
- Environmentally friendly all the way from delivery to use
- Stainless 20 micron anodized aluminium
- Clear corners and backs
- Greatest degree of stability and load
- Simple click-assembly of the shelves, ensuring ultimate flexibility
- Exclusive use is made of stainless screws – none of them visible
- Cleaning is both fast and top quality, everything being accessible
- No frost issues with cardboard boxes

Tonon is simply the best choice in the business for food storing

HIGH DENSITY SHELVING SYSTEM - BOTTOM RAIL

TRAY TROLLEYS

HIGH DENSITY SHELVING SYSTEM - UPPER RAIL

CAPACITY

The capacity with an evenly distributed load can range between a minimum of 110 kg and a maximum of 250kg per shelf.

The shelving is suitable for use in coolrooms, supermarkets, commercial kitchens, restaurants, butcher's shops, poultry shops, delicatessens, etc. It is also used in the food industry and catering where hygiene is strictly essential.

Other applications include non food storerooms, hospital laboratories and sterile rooms.

Meats

HYGIENE

Hygiene has become an obvious and growing area of focus for your business.

Tonon has created a unique system which cuts down considerably on cleaning and maintenance.

SUSTAINABLE DEVELOPMENT

Sustainable development needs to meet the needs of present and future generations.

For this reason, Tonon decided to use recyclable materials such as Aluminium and High Density Polyethylene to manufacture our products. For example, Polyethylene and Aluminium are used for the production of a new plastic material, the Ecoallene®.

The shelves and assembly parts are composed of high strength plastic certified foodsafe, bacteria proof, washable and sanitisable according to HACCP standards.

TONON is 99.9% recyclable from the package to the product

PRIDE

The tradition behind Tonon is a proud one, and this is emphasized by the constant growth enjoyed by the company since its founding in 1946 in Turin.

Over the years Tonon has steadily expanded out of Turin till the present, and in practice it now has satisfied customers all over the world.

- 1946**
Marino Tonon
The company is founded by Marino Tonon
- 1961**
Turin
Brand-new factory built in Borgaro Torinese outside Turin
- 1973**
Tonon
