Automatic Food Slicer

Model VA2000 Automatic Food Slicer

The Model VA2000 food slicer is built for high volumes and hard work. It is fully automatic, fast, clean and efficient.

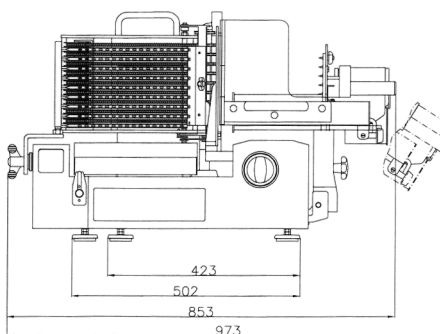

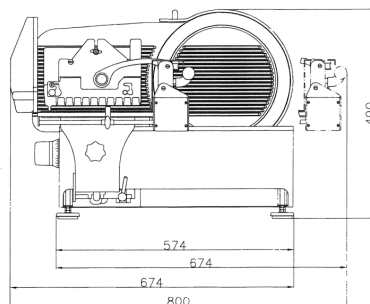

Besides slicing food products, it collects the slices on a product receiving tray in either vertical stacks or single layer shingling.

Depending on the product width, two or more pieces may be loaded on the meat table for one slice operation, increasing productivity.

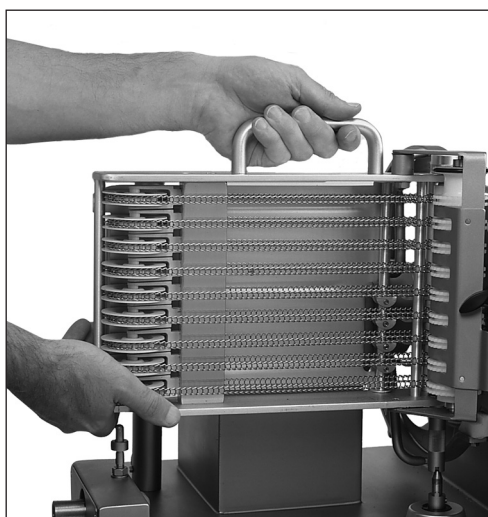

- Manufactured in stainless steel to resist the corrosive effects of salts and acids;
- Variable carriage speed 25-55 strokes per minute.
- For special slicing procedures the machine can be manually operated by simply turning a lever at the carriage;
- Internal ventilation;
- Programmable stacking, shingling, grouping display;
- Fully automatic slicing and stacking operations;
- Combined End Piece Holder and Meat Comb to minimise slicing waste;
- Complete self contained detachable sharpening device;

SPECIFICATIONS

Blade (mm)	300
Overall Dimensions (mm)	
Width	853
Depth	674
Height	490
Single (240V) phase or three (415V) phase motor power requirement (W)	600
Net weight (kg)	75
Slice Capacity	
Height (mm)	180
Length (mm)	255
Max. height of stacking (mm)	75
Shingling 1-9 layers automatically - Shingling distance can be pre-set	
Max. Slice thickness (mm) (infinitely variable)	10

The unit is easily disassembled for cleaning and maintenance.
