

PUMP1050 Transfer Pump

Product Features

- Stainless steel construction
- Pneumatic lift
- On wheels for easy moving
- Variable speed
- Maximum transfer 60 litres per minute

PUMP1050

The PUMP1050 is designed to transfer products from a bowl/container to the depositor hopper.

This machine provides the operator with a fast and ergonomic way to transfer product from the mixing bowl at a rate of 60 litres per minute. Speed of operation is dependant on the operators and also the type of product being pumped. An electronic sensor cut off switch is included as standard.

Its heavy-duty construction and stainless steel fabrication make it the ideal choice for busy wholesale operations. This machine operates using compressed air so no power connections are required.

PUMP1050 Transfer Pump

Model PUMP1050

Dimensions

Width	720mm
Depth	1000mm
Height	2500mm
Nett Weight	49kg

Additional Information

15 CFM Air compressor required - not included
