

36-Inch Double Door Wine Cooler

EL-36TD180

The sleek 36-Inch Double-Door Wine Cooler allows you to accurately control the temperature of your favorite wine bottles with two exact temperature controlled zones. This unit features two dual-paned glass doors with pole handle that separate the wine storage in the left zone and right zones. Outfitted with 15 Ouzo™ gliding wire racks with black lip on each zone, this wine cooler can hold approximately 180 bottles in two exact cooling zones combined. This state of the art cooler also features a black cabinet, all-glass technology, and touch screen control panel on the top of each door that allows changes to your wine temperature setting. This unit is designed for built-in installation and is a must-have for the wine lover with an eye for style!
