SPECIFICATIONS

This is a very versatile machinery used as Mixer to whip Eggs or Cream and partially as Dough Mixer. Ideal for little spaces. It is manufactured in high quality and rugged materials. Thanks to the tool particular form and to its planetary rotating and eccentric movement, the mixer can whip and mix in short time a maximum volume of 80lt with an optimal homogeneity and oxygenation. Manual bowl uplift on slides by mean of leverage. The transmission system is particularly noiseless because every part is on rolling bearings. The machinery has a multispeed inverter and it is provided of the necessary safety devices.
