DENOMINATION:

Refrigerated trolley ECFF-40 capacity 40 levels GN 2/1 with guide spacing of 60mm cold group included refrigerant gas R290.

DESCRIPTION :

- Especially designed for maintaining and serving previously prepared cold food. Ideal to replace cold chambers or refrigeration units.
- Refrigeration unit with fan built inside the chamber. A constant flow of chilled air is generated by the evaporation fans, leading to a fastest temperature drop, as well as a better, more uniform cool air distribution.
- Digital reading electronic to monitor and control chamber temperature and defrosting cycle.
- Doubled wall with an injected CFC-free, ecological polyurethane.
- 40 kg/m³ density isolation. With its highlyinsulated walls, heat transfers are reduced thus obtaining energy savings.
- Automatic locking mechanism in hinges: when door is in a position of less than a 90° angle it gets fully closed, thus avoiding rising of temperature.
- Four (4) sound-proof castors of 125 mm diameter, two of them with brakes for an easy handling and safer use. Non-marking, special rubber bumpers to protect against direct impacts in all four (4) corners.
- Key locked door.
- Made of stainless steel.
