Fiorenzato

THE ORIGIN OF GRINDERS

The Fiorenzato Sense Series combines advanced technology with Italian precision to redefine consistency in coffee grinding. Engineered for high-performance environments, each grinder features integrated dose-sensing technology, ensuring every shot is perfectly dialled in with minimal waste. The intuitive touchscreen interface gives baristas full control with real-time feedback, while the silent motor and streamlined form factor keep the workflow smooth and the counter clean. Whether you're running a fast-paced espresso bar or a specialty café, the Sense Series is built to elevate quality, speed, and reliability in every cup.

Dose-Sensing Technology
Built-in sensors ensure every grind delivers consistent, accurate doses..

Silent Grinding System
Low-noise operation enhances the café environment and customer experience.

Memory Recall
Save grind settings for espresso, moka, and filter brewing.

Precision Flat Burrs
Engineered for uniform grind size — available in 64mm, 71mm, and 83mm options.

Micrometric Adjustment
Fine-tune your grind with stepless collar adjustments and visual indicators.

Stylish, Compact Design
Sleek Italian aesthetics with small footprints to fit any workspace.

Touchscreen Display
Easy-to-navigate digital interface for customising settings and monitoring output.

Smart Cooling Systems
Actively regulates internal heat to protect the burrs during extended use.

Durable Build for Daily Service
Commercial-grade components built to handle high-volume performance.
