Instructions for safe operation

DANGER! Risk of electric shock due to moisture

- The base unit, the power cable and the main plug must not be immersed in water or other liquids.
- If the entire appliance falls into water, disconnect the main plug immediately. Only then is it safe to retrieve the appliance. Do not use until the appliance has been checked by a certified technician.
- Should liquids enter the base unit, pull out the mains plug immediately. Have the appliance checked by a certified technician before reusing.
- Never touch the appliance or the plug with wet or damp hands.

DANGER! Risk of electric shock

- Only plug the main plug into the wall socket after the appliance has been completely assembled.
- Only connect the main plug to a properly installed and easily accessible grounded wall socket whose voltage and frequency corresponds to the specifications on the rating plate. The wall socket must continue to be easily accessible after the appliance is plugged in, in case of emergency the appliance can be unplugged immediately.
- Ensure that the power cable cannot be damaged by sharp or hot objects.
- Do not place the appliance on a heating object (gasoline, electric, charcoal cooker, etc.) Keep the appliance away from any hot surfaces and open flames. Always operate and place the appliance on a horizontal, stable, clean, heat-resistant, and dry surface.
- Do not place the appliance at the edge of the counter or table side to avoid accidents. Also to ensure the surface where the appliance is placed on is capable of supporting the overall weight of the appliance.
- Do not wrap the power cable around the appliance.
- Even after it has been switched off, the appliance has not been completely disconnected. In order to

fully disconnect it, pull out the power plug.

- Ensure that the power cable never develops into a trip hazard, and that nobody can get caught in or stand on it.
- Do not use the appliance near explosive or flammable materials.
- When using the appliance, ensure that the power cable cannot be trapped or crushed.
- When removing the main plug from the wall socket, always pull the plug and never the cord.
- Disconnect the main plug from the wall socket ...
 - ... if there is a fault,
 - ... while you do not use the Heinzelmann CHEF-G,
 - ... before you assemble or disassemble the Heinzelmann CHEF-G
 - ... before you clean the Heinzelmann CHEF-G and
 - ... during thunderstorms.
- Do not use the appliance if there is visible damage to the appliance or the power cable.
- To avoid any risk, do not make modifications to the product.
- Do not attempt to repair the appliance yourself. In case of malfunctions, repairs are to be conducted by qualified personnel only.
- Failure to follow these instructions could cause a risk to life.

DANGER! Always operate and place the appliance on a horizontal, stable, clean, heat-resistant and dry surface.

DANGER! Risk of injury through burning

- The surfaces of the appliance might become hot during operation.
- Only transport the appliance when it has cooled down.
- Wait for the appliance to cool down before cleaning or storing.
- Place the appliance exclusively on a level, dry, non-slip and waterproof surface, so that it can neither fall nor slip off.

- Never place the appliance on a hot surface, e.g. hot plate, therefore place the appliance on a waterproof surface.
- Do not use any astringent or abrasive cleaning agents.

2. Technical Parameters

Rated voltage :	220 -240 V
Rated frequency :	50/60 HZ
Rated power :	350 W
Cord Type :	cable 2*0.5mm ² * 1.5mm
Size :	120 x 120 x 350 mm

3. Product Structure

1. Lid
2. Top body
3. Switch button
4. Body
5. Base
6. Dry grinding cup
7. Wet grinding cup

4. Operating Instructions

PRELIMINARY CHECKS

1. After removing the packaging, make sure the product is complete and undamaged and that all accessories are present. Do not use the appliance if it is visibly damaged. Contact with the technical assistance service.
2. Connecting the appliance. Check that the mains power supply voltage corresponds to the value indicated on the rating label. If the power socket does not match the plug on the appliance, have the socket replaced with a suitable type, or change the plug by a qualified professional.

OPERATION

1. Place the appliance on a flat surface.
2. Place the container directly on the appliance.
3. Pour the desired amount of dry ingredients into the container.
4. Tighten the lid by turning it in an anti-clockwise direction. A safety device prevents switch-on if the lid is not well inserted.
5. Do not attempt operation without the

cover being in place.

6. Extract the necessary amount of wire and plug into the socket.
7. Rotate the start knob till you reach the desired result.
8. Unplug the unit.

Recommended Ingredients:

Dry Grinding Cup (for low-moisture contents):

- Coffee beans
- Dried spices (e.g., cinnamon sticks, bay leaves, dried herbs)

IMPORTANT: Ensure all ingredients are completely dry to prevent clogging or motor strain/overheating.

Wet Grinding Cup (for moist ingredients):

- Fresh aromatics (e.g., ginger, garlic, onions)
- High-moisture vegetables (e.g., tomatoes, small carrots cubes, chillies)

IMPORTANT: Avoid overfilling to ensure optimal grinding consistency.

IMPORTANT SAFETY ADVISE:

- Do not process hard substances (e.g., ice, bones, nuts with shells)
- DO NOT ADD WATER or other liquids to the Dry or Wet grinding cup. Excess moisture may affect performance and damage the unit.

NOTE:

Suggested Operation Time : 60 seconds (3-minutes pause is required to allow the motor to cool down after each operation)

5. Cleaning

1. Be sure to unplug this appliance before cleaning. To protect against electrical shock, do not immerse cord, plug or unit in water or liquid.
2. Remove residues using the brush. Do not touch the blade because it is sharp.
3. Do not immerse into water.
4. To remove residue or aromas left behind grind one tablespoon of baking soda in the bowl then wipe thoroughly.
5. Clean cups thoroughly after each use to prevent taste residues contamination.
6. Clean the exterior of the appliance using a soft cloth.
7. Store excess cord by pushing a section at a time into the cord storage area in the base of the unit.

6. Thermal Protection

The Heinzelmann CHEF-G is equipped with thermal protection that detects overheating conditions of the unit, ensuring that CHEF-G operates within safe limits. If the motor or components are subjected to excessive heat, they can deteriorate and fail.

The unit shuts down when temperatures exceed safe limits, preventing fires or damage. After the motor cools down, power is automatically restored to resume operation.
