

PRODUCT ADVANTAGES

- Protects machine against limescale
- extends maintenance intervals and service life
- Optimises the effectiveness of detergents
- The system is automatically regenerated while in normal operation
- supplying soft water 24 hours a day
- No disruption for regeneration thanks to double-chamber system
- Operates with cold or warm water up to 65°C
- Compact dimensions, including rollers for flexible installation
- Does not require electrical supply

TECHNICAL DATA

Weight (gross / net)	21 / 19 kg
Maximum hardness	30 °dH*
Capacity salt container	20 kg
Salt consumption per regeneration	0.5 kg
Supply capacity	
Continuously	20 l/min
Maximum	25 l/min

* The water treatment system must be connected to the drinking water supply system by means of a backflow preventer. Depending on local water quality, it might be advisable to install an upstream fine filter. An overflow hose for the tank can be installed on-site.

CONNECTIONS

Raw water connection	R 3/4"
Pure water outlet	R 3/4"
Flow pressure	3 - 7 bar
Max. supply water temperature	65 °C
