

VarioCart 2 shelves 800×600mm

Product code	Type
0112731	VC 8x4/2 luftid M

FUNCTIONAL DESCRIPTION

The VarioCart 2 shelves 800×600mm from Hupfer serves the transport of Euro crates.

- Hygienic stainless steel surfaces ensure a low-germ environment and quick, residue-free cleaning for strict hygiene compliance
- High payload capacity supports heavy equipment up to maximum weight limits, ideal for demanding commercial and medical use
- Height-adjustable shelves enable flexible storage configurations without tools, optimising space for various container sizes
- Shelves with sound-absorbing mats reduce noise levels, creating a quieter and more comfortable environment
- Four swivel castors with locking mechanisms provide precise manoeuvrability and secure positioning during operation

EQUIPMENT FEATURES

Hygienic stainless steel surfaces

Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

High payload

With up to 100 kg load per shelf and a total load capacity of 300 kg, the station offers maximum flexibility for heavy equipment. Ideal for professional use in commercial kitchens and medical areas.

Disk bumpers

The elastic plastic rollers on all four corners of the appliance provide reliable protection against damage during transportation. Thanks to their simple design, they can be replaced quickly and without tools, which reduces maintenance costs and increases operational readiness.

High Manoeuvrability: 4 swivel castors, 2 with total locks

Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

Optimised for Euro containers

The dimensions of the shelves are perfectly matched to the standard dimensions of Euro containers (600 x 400 mm). This ensures optimum use of space and that the containers stand securely without slipping.

Stable shelf connection

The stable shelf connection absorbs vibrations and dynamic driving forces during handling.

Castor with air-identical tread

The soft running surface absorbs vibrations from the ground and significantly reduces the noise level. This ensures particularly quiet and vibration-free transportation, which protects both the goods and the working environment.

Height-adjustable shelves

The practical plug-in system allows flexible height adjustment of the shelves without tools. This allows you to adjust the heights to suit different container sizes and stored goods - for maximum efficiency in the kitchen and warehouse.

Shelves with sound-absorbing mats

The sound-absorbing mats supplied effectively reduce the noise level. This creates a quieter atmosphere in the guest area – for greater well-being and comfort.

GENERAL TECHNICAL DATA

Rated capacity

Position	Rated capacity	Quantity
Total	Euro container 600 x 400 mm	4
Width rated	800 mm	
Depth rated	600 mm	
Nominal height	1.048 mm	
Width actual	940 mm	
Depth actual	685 mm	
Height	1.048 mm	
Weight	14 kg	
Payload	200 kg	
Main material	Stainless steel	

SLIDE-IN PROPERTIES

Pitch	66,5 mm
-------	---------

VarioCart 2 shelves 800×600mm

INTERIOR PROPERTIES

Board construction	Height-adjustable shelf With sound insulation board
Number of shelves	2
Load capacity per shelf	100 kg

MOBILITY

Set of castors	2 swivel castors with brakes 2 swivel castors
Castor attachment	Back hole
Castor bearing type	Ball bearing
Castor housing material	Plastic
Wheel ø	125 mm
Type of tyre tread	Rubber, air identical
Wheels with thread guard	Yes
Antistatic wheels	No
Design of the locks	Total lock
Impact protection construction	Deflector rollers
Push handle construction	Push bar
