

VarioCart 3 shelves 800×600 mm black

Product code	Type
0112709	VC 8x6/3 Black M

FUNCTIONAL DESCRIPTION

The VarioCart 3 shelves 800×600 mm black by Hupfer serves the transport of Euro crates.

- High payload capacity offers maximum flexibility for heavy equipment in commercial kitchens and medical environments
- Height-adjustable shelves enable customised storage solutions for various container sizes, enhancing efficiency
- Optimised shelf dimensions ensure secure and space-efficient accommodation of standard Euro containers
- Sound-absorbing mats reduce noise levels, creating a quieter and more comfortable atmosphere
- Elastic plastic disk bumpers protect against damage during transport, minimising maintenance and maximising uptime

EQUIPMENT FEATURES

High payload
With up to 100 kg load per shelf and a total load capacity of 300 kg, the station offers maximum flexibility for heavy equipment. Ideal for professional use in commercial kitchens and medical areas.

Disk bumpers
The elastic plastic rollers on all four corners of the appliance provide reliable protection against damage during transportation. Thanks to their simple design, they can be replaced quickly and without tools, which reduces maintenance costs and increases operational readiness.

High Manoeuvrability: 4 swivel castors, 2 with total locks
Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

True-tracking mobility: 2 swivel castors, 2 fixed castors
2 swivel castors, 2 fixed castors: The trolley stays on track, even under heavy loads. Precise manoeuvring, fewer corrections, greater operational safety.

Optimised for Euro containers
The dimensions of the shelves are perfectly matched to the standard dimensions of Euro containers (600 x 400 mm). This ensures optimum use of space and that the containers stand securely without slipping.

Stable shelf connection
The stable shelf connection absorbs vibrations and dynamic driving forces during handling.

Height-adjustable shelves
The practical plug-in system allows flexible height adjustment of the shelves without tools. This allows you to adjust the heights to suit different container sizes and stored goods - for maximum efficiency in the kitchen and warehouse.

Shelves with sound-absorbing mats
The sound-absorbing mats supplied effectively reduce the noise level. This creates a quieter atmosphere in the guest area - for greater well-being and comfort.

GENERAL TECHNICAL DATA

Rated capacity		
Position	Rated capacity	Quantity
Total	Euro container 600 × 400 mm	6
Width rated	800 mm	
Depth rated	600 mm	
Nominal height	1.048 mm	
Width actual	940 mm	
Depth actual	685 mm	
Height	1.048 mm	
Weight	18 kg	
Payload	300 kg	
Main material	Stainless steel	

SLIDE-IN PROPERTIES

Pitch	66,5 mm
-------	---------

INTERIOR PROPERTIES

Board construction	Height-adjustable shelf With sound insulation board
Number of shelves	3
Load capacity per shelf	100 kg
Execution of board rim	Profile edge

VarioCart 3 shelves 800×600 mm black

MOBILITY

Set of castors	2 swivel castors with brakes 2 swivel castors
Castor attachment	Back hole
Castor bearing type	Ball bearing
Castor housing material	Plastic
Wheel ø	125 mm
Type of tyre tread	Rubber – Standard
Wheels with thread guard	Yes
Antistatic wheels	No
Design of the locks	Total lock
Impact protection construction	Deflector rollers
Push handle construction	Push bar
