## MAIN FEATURES

|                                       |                                                                                                                                                                                      |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Description</i>                    | Electromechanical single pizza chamber oven                                                                                                                                          |
| <i>Version</i>                        | Single block versions with 1 or 2 stacked baking chambers                                                                                                                            |
| <i>Standard equipment</i>             | <ul style="list-style-type: none"> <li>• Aluminised sheet metal chamber</li> <li>• Sides, roof in pre-painted sheet metal</li> <li>• Glass door</li> <li>• Internal light</li> </ul> |
| <i>Functions</i>                      | <ul style="list-style-type: none"> <li>• Baking chamber temperature</li> <li>• Top and bottom electromechanical controls</li> <li>• Analogue temperature indicator</li> </ul>        |
| <i>Baking chamber internal height</i> | 8 cm                                                                                                                                                                                 |
| <i>Max temperature</i>                | 350°C                                                                                                                                                                                |
| <i>Optionals</i>                      | <ul style="list-style-type: none"> <li>• Stainless steel stand</li> </ul>                                                                                                            |

## PRODUCTIVITY

|       |           | PIZZAS<br>DIAMETER (CM) | TRAYS DIMENSIONS<br>(CM) | NR. PIZZAS/TRAYS<br>(into baking chamber) |
|-------|-----------|-------------------------|--------------------------|-------------------------------------------|
| ATLAS | ATLAS 1   | Ø 35                    | 35x40                    | 1                                         |
|       | ATLAS 1+1 |                         |                          | 1+1                                       |

## ELECTRICAL DATA

|       |           | POWER<br>SUPPLY (V) | POWER<br>(kw) | AVERAGE<br>CONSUMPTION<br>(KW/H) | CURRENT DRAW<br>(A) | CUSTOMER PANEL<br>PROT. NxA fuse |
|-------|-----------|---------------------|---------------|----------------------------------|---------------------|----------------------------------|
| ATLAS | ATLAS 1   | 230/1               | 1,6           | 0,96                             | 7                   | 2x8 (230/1)                      |
|       | ATLAS 1+1 |                     | 3,2           | 1,92                             | 14                  | 2x16 (230/1)                     |
