

MF NEXT LL

The propane blast chiller, ecological and completely customizable according to the needs of each professional choosing functions, type of performance, size of the display and the most useful features for its use.

Yield

	Turbo / Turbo Silent	
Rapid blast chilling cycle capacity (90/+3°C)	95 kg	
Rapid freezing cycle capacity (90/-18°C)	95 kg	

Tests carried out in compliance with the Irinox procedure using 5-cm thick beef

Capacity

Number of trays: 27 x GN 2/1 | with Double MultiRack 54 x GN1/1 (H= 20 mm)

Number of trays: 18 x GN 2/1 | with Double MultiRack 36 x GN1/1 (H= 40 mm)

Number of trays: 13 x GN 2/1 | with Double MultiRack 26 x GN1/1 (H= 65 mm)

Standard construction details

- Door opening on the left with hinges on the left.
- Patented concealed hinges.
- Full height door with double bevelled side edges.
- Door opening up to 160°.
- Magnetic and slow closing of the door.
- Equipped with 10-chamber gasket designed for high and low temperatures.
- Core probe with 3 detection points with quick screw connector, anti-corrosion, watertight IP67.
- Large magnetic flat surface (400x150 mm) to fix the core probe.
- Easy removal and cleaning of the condenser filter thanks to the tilting grill.
- Ergonomic and robust handle made of steel.
- AISI 304 stainless steel internal and external material.
- Built-in air condensation.
- R290 refrigerant gas.
- MultiRack®, the patented adjustable tray holder that doubles the number of trays for each model and improves air circulation inside the blast chiller.
- 15 pairs of guides included.
- WIFI module included for the HACCP report download.

Operation

2 available configurations:

Essential This is the basic configuration that includes the most known functions of the blast chiller: cooling, rapid freezing, cold storage and non-stop cooling/freezing; regardless of the product introduction temperature, it always guarantees excellent results in terms of quality and uniformity of temperature in the cell.

Excellence The multi-function configuration including 12 functions. In addition to the cold functions present in the Essential configuration, you will find: hot preservation, defrosting, ready-to-serve, low-temperature cooking, chocolate melting, leavening, pasteurization and drying.

- MF Next's cooling cycles lower to +3°C the core temperature of the food, introduced at any temperature, even as soon as it is out of the oven, and quickly cross the band of maximum bacterial proliferation, the cause of their natural ageing.
- MF Next's freezing cycles transform the water contained in food into microcrystals that preserve its structure and quality for longer.
- Automatic recognition of manual work mode (timed) or automatic mode (with probe).

2 available performance levels

Turbo: this performance increases the cooling and freezing capacity by up to 30%, thanks to the use of the 5-speed "EC" Electronic Evaporator Fans, which manage temperatures from -40° to +85°C, Scroll compressors and one-speed condenser fan. With climate class 5, it guarantees excellent performance above 40°C ambient;

Turbo Silent: this performance increases the cooling and freezing capacity by up to 30% with a very low level of sound emissions, thanks to the use of the 5-speed "EC" Electronic Evaporator Fans, which manage temperatures from -40° to +85°C, Scroll compressors and variable-speed "EC" electronic condenser fan. With climate class 5, it guarantees excellent performance above 40°C ambient.

Interface

4.3' display with capacitive screen, white LED bar to follow the progress of the cycle in progress even from a distance. With acoustic signal with adjustable intensity and fixed tone.

10' display with capacitive screen, RGB colour LED bar to follow the progress of the cycle in progress even from a distance. With acoustic signal with adjustable intensity and fixed tone.

- Dashboard customizable with customer cycles
- Ability to customize and/or create new cycles
- Library with all cycles made by the customer and by Irinox
- Calendar for planning the cycles, with relative notification and the possibility of starting or postponing them.

Connectivity

FreshCloud® is Irinox's IOT technology that allows you to control and interact with MultiFresh® Next at any time via an APP. The application features are:

- Remote monitoring of the operation and parameters of the cycle in progress
- Remote parameter modification (ventilation, cabinet temperature, core probe temperature, humidity level, phase duration)
- Remote start of the pre-cooling or pre-heating phases
- Push notification system
- Usage statistics viewing
- HACCP data backup
- Transfer and import of cycle libraries to other blast chillers.

Optional

- Double MultiRack for GN 1/1 trays replacing the Standard MultiRack
- Double MultiRack for GN 1/1 trays in addition to the Standard MultiRack
- MultiRack with pastry tray setup
- Humidification kit to manage 6 levels of humidity consisting of a humidity detection sensor and a nozzle that atomises the humidity inside the blast chiller.
- Sanigen® (Irinox patented sanitization system).
- Water condensation (available only for Turbo performance)
- WIFI printer with 1300 thermal label roll
- Door opening on the right with hinges on the right
- 115° opening for side-by-side machines, shockproof (on request).
- 4 wheels, 2 of which with brake.
- Pair of additional GN 2/1 or GN 1/1 or 600x400 mm slides
- Vacuum probe
- Special voltages on request
- Ethernet board
- Packing in HT wooden case.

Product warranty

- 2 years from the date of installation, after sending the installation report, on the parts (see warranty condition).

MF NEXT LL

HEIGHT

		a	b
Standard feet	mm	1965	115 + 165
Lowered feet option	mm	1930	80 + 115
Castors option	mm	2005	155

Measurement in millimeters

- ★ Main power cable
- ▲ Drain pipe (corrugated flexible hose $\varnothing 32\text{mm}$)
- Ⓐ Water outlet
- Ⓑ Water inlet

Blast chilling cycle from/to +65 °C / +10°C	min	81	-
Blast freezing cycle from/to +65 °C / -18°C	min	270	-

INSTALLATION

The blast chiller must be installed by following and complying with the contents of the specific installation manual

The content of the manual must be carefully followed to ensure correct operation and to protect the rights of the user based on the warranty.

Continuous product development may require changes to specifications without notice.
