

Nero 747235 Black Flatbed Microwave - 800W

Product Images

Description

The Nero 747235 is a black flatbed microwave that replaces the traditional turntable with a flat cooking floor, giving you the full interior space of the cavity for larger dishes, odd-shaped containers and bulkier items. With 5 power levels and 8 cooking presets, the 747235 offers practical day-to-day versatility in a clean, easy-to-clean package.

Key Features

- Flatbed design — no turntable, full interior floor space for larger and odd-shaped dishes
- 5 power levels for full cooking control
- 8 cooking presets for common foods
- 60-minute timer display
- Push button cooking control in 30-second increments
- White LED display
- AUS/NZ Electrical Safety Standards approved
- EPS-free packaging

Best For

Staff rooms, hospitality kitchens and accommodation venues looking for a practical, easy-to-clean microwave with a modern flatbed interior.

Frequently Asked Questions

What is the benefit of a flatbed microwave?
Without a turntable, the full floor area of the cavity is usable. This makes it easier to fit larger plates, rectangular containers and odd-shaped dishes that would otherwise be limited by a rotating plate.

Is the flatbed interior easier to clean?
Yes. A flat, unobstructed floor with no turntable mechanism is significantly easier to wipe clean than a traditional turntable cavity.
